The light rail silver lines along with bus 87, 88 allow me to commute from home to my workplace at Children's Hospital. The combination of multiple proposed rail and bus route cuts would require me to end my employment in the city of Pittsburgh and seek medical treatment elsewhere as I receive care at UPMC in Oakland. I do support a modest fare increase in order to keep as many bus and rail lines as possible, since the cost of relocation for greater Pittsburgh residents would likely be prohibitive. Removing routes and decreasing frequency create a negative feedback cycle of less revenue leading to even more cuts in the future.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I don't understand why all this money was spent to change the name to PRT if they were already so over budget? The change was unnecessary but it's done now. Maybe the funds were specifically for marketing? Or maybe you need a new bookkeeper. The south hills residents rely on the T to get to town and work, traffic is terrible if you have to drive and parking downtown is expensive, its already reduced services, please don't take it away. The lines are here already, it would be an incredible waste and disservice to the community.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I moved to this location recently forthe specific reason of great public transportation opportunities. I take the Y47 and Y49 very often for doctor visits as well as shopping. My mother lives on the 14 busline and I would lose my way of visiting her since I do not have a vehicle. I would essentially be stuck here without transportation unless I pay for Uber which my income could not afford. Maybe if the bus drivers would stop letting some people on who cannot or rather would rather not pay for their ride. I see it far too often. Maybe cut the buses off earlier in the day, but don't stop routes entirely. I don't mind the increase in fare.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
I am over age 65 and don't pay fare. I would be more than willing to pay for bus/rail service. Although oder riders' fares are subsidized through the lottery, it isn't fair that we don't pay when others depend on the service, as well.
Other comments (bus and rail fare increases):
I am over age 65 and don't pay bus or rail fares. I would not be opposed to paying my fair share. I know there are PA lottery funds that pay my way, but it isn't fair to others, especially if it means service cuts or fate increases.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
Other comments (ACCESS service reductions):
Although I choose not to use Access regularly, these changes would adversely impact disabled and older persons. The little I use Access would probably disappear if these changes were made. I worry more about others who would be really hurt by these service cuts.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
I would only support the fare increased if it meant that service could be continued at its present level.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The 28X would be effectively useless. You're going to make students across all the campuses in Pittsburgh take THREE buses to get to and from the airport?? Their commute to get to the airport could be LONGER than their actual flight itself! The 28x has been a crucial bus to commute to Pitt myself but also for HUNDREDS of students as well. The G2 has already experienced horrific time delays so it's going to take me an hour to commute each way. I'll absolutely just switch to driving, it literally renders my bus pass useless. Not to mention, Pitt hardly has any parking on campus as is and encourages everyone who can to use the bus, but this is going to make congestion with parking on campus EXCEPTIONALLY worse. I think rather than letting the people of Pittsburgh suffer from your inability to secure the proper funding, you find other ways to fund what already works (and not even with full efficacy, at that). Bus travel is CRUCIAL for so many people I work with, so to go through with these proposed changes is honestly an entire disgrace. I really hope you actually read these comments and do what's necessary to make things better, because so often surveys like this are an act to make it look like you care about what the people have to say, yet your mind is already made up. Reducing routes and frequency will literally make for a completely pointless system...
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Thankfully my workplace pays for our bus passes, but so many folks would be impacted with significance, not to mention they'll be paying MORE for LESS!? Like I'd say a raise in fairs makes sense to keep up with inflation but if you go through with this please do NOT compromise the routes you have already. It's going to make for a painfully awful system, a true disgrace in comparison to so many other cities and metropolitan areas. Think about how this could even affect those even wanting to travel to our city - the lack of access to the bus is going to make it SO much less appealing!!

Other comments (bus and rail service reductions):
Most people are being forced to return to the office in town and to do so requires public transportation. The Ts coming less frequently make it very hard to get to work on time if you miss one it can add a long time to the commute when they keep getting spread out more. Sure I can arrive for an earlier T and get to work 2N/A minutes early but that also wastes time sitting around. With all of the slow downs it already takes me an hour and a half to get into town, less frequent service isn't fair if the county wants people back in town working.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
If you completely remove Library t, there it will make it hard or impossible to be able to commute into the city from the South Hills. There is literally no other public transportation in my area. I depend on this t to get to my job downtown and if it's eliminated, I will be forced to look for a job outside of the city. You could potentially lose a bunch of riders.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
How can you raise prices and then eliminate so much? I would not pay an increase in price if the library t is eliminated and then struggle to find another way into town from my house. I would just have to find another way to travel and it wouldn't be via PRT.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I moved to the North Side with hopes of increased public transportation options. Beyond the funding crisis, I would take public transportation more if there were more options to get to places I need/want to go to in a reasonable time. In the future I may rely more on PTR because of a new job. The cut back in services are also making me consider moving to a city with better public transportation.
That part aside, I also can't stand by while my neighbors lose options to get to work, school, etc. Off loading the burden of car ownership on those who cannot drive is not right. There should be options for all.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I moved to my residence based on transportation that was available. Even with rising rents and other challenges, that has been a constant. It would be destabilizing to have to take multiple routes to get to work. My appointments and daily tasks are structured based on location of bus lines. Taking the bus already slows down life. I do not want to buy a car. More cars on the road is not a great solution.
Please indicate if you oppose or support the proposed fare increases:

I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
I only objected to routes in my area or routes that I use on occasion, but I strongly object to the destruction of public transit which is a key to fairness, taking individual auto traffic off of roads, and making a dent in environmental catastrophe ahead
Other comments (bus and rail service reductions):
These elimiminations of service will further impact the number of patrons on bus and rail. If anything we need a way to encourage more of the public to use public transit and leave the car at home which may require changing the way routes are designed which is another of the plans for the futere of PRT
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
It is easy for me to support the fare increases as a senior citizen who doesn't have to pay, but I would be willing to pay the fare for my trip if the lottery money could also be given to the prt for my trips as well. We all need to tighten our belts a bit, and although this fare increase would make our fares one of the highest in the country, this is an expensive place to travel because of the topography. How much money would be saved or earned by getting rid of the eqipment and garages no longer needed if the service was cut? How much would it cost to run a no fare system with no mor fare monitoring, no more fare dispencing equipment, and no more time wasted on arguments between operators and passengers?
Please indicate if you oppose or support the proposed changes to ACCESS service:

The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Our Allegheny County paratransit has always been thought of as one of the best in the country with significantly more coverage both in area and time available. We fought a long time for the benefits, and it would be sad to see them go away. These cuts would affect people who are more vulnerable than the majority of the population and we with the ability to withstand additional taxes should be looking out for the more vulnerable in our population.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
It is unfortunate that fare increases are necessary, but if that is the only way to fund the service in a meaningful way, we just have to pay the fares. If we added an income aspect to the payment part of the equation, how much would that increase the administrative costs for running the program?

Other comments (bus and rail service reductions):
Reliable public transportation is one of the things that brought me to Pittsburgh, and it is vital to the residents and economy of Allegheny County. These cuts are catastrophic for our transportation system, the people who depend on them to get to work, school, or to access vital services such as healthcare and groceries, and the businesses that rely on the access that public transport provides to their employees and customers.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Numerous people I know who live in Pittsburgh do not have reliable personal modes of transportation, and this would significantly alter their ability to access critical services. This would also increase an even larger number of friends and family members' commute time to their workplaces downtown, and have a HUGELY negative impact on the economy of the Cultural District and North Shore entertainment district with the T being severely limited. Parking is already impossible in these places - that is the huge reason why, even as someone who lives in Bloomfield, I need to have the option available to me to take public transit downtown or to the north shore.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The proposed changes would be disastrous to everyone who relies on public transportation in Allegheny County. These changes will directly impact where I am able to live, work, and shop. I am a former service industry worker, and I am highly concerned about service stopping at 11pm. Bars and many restaurants stay open much later than this and many service workers rely on at least 1 bus to get to and from work. What will happen to these folks? People will either need to quit their jobs or be fired - what will the impact be on our local communities if our neighbors are out of work and local businesses have fewer employees.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It is absurd that bus fares will be some of the most expensive in the country, especially considering the extreme cuts proposed. At least in a city like New York (which has similar fares) public transportation is reliable and accessible.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Pittsburgh really stands apart from most US cities of comparable size in the frequency, coverage, and reliability of its public transportation. I would hate to see this major strength of Pittsburgh's reduced to the poor public transportation service that defines most US cities other than metropolises like New York and Chicago.
In particular I would like to defend the 61 A-D routes, that are a major connector between the east and west sides of the city via Forbes, and the routes on the busway, especially P1 and P3. The dedicated busway is an incredible feature of Pittsburgh's public transportation because of how quickly and reliably it connects the major residential areas east of the city to major destinations like downtown (P1) and Oakland (P3). These routes significantly decrease traffic and the need for parking in these high-volume areas and should be preserved at all costs. I can personally attest to their value as I regularly take the P3 to Oakland and my partner takes the P1 downtown for work. We also take these routes to get to festivals, concerts, restaurants, and other events downtown.
Thank you for your consideration and please do whatever you can to support Pittsburgh's existing public transit infrastructure.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I obviously would prefer that the transit fare is not increased, but I think that a slight increase of no more than $0.25 per base fare would be a preferable alternative to cutting routes that service high-use and/or high-need communities.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Don’t limit transport availability to those with disabilities or limited access to transportation, especially those who live in outlying economically depressed communities.

Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
There are so many factors in making the move to eliminate the silver line (or public transportation in general) that will disrupt our local economy. First of all the silver line very convenient traveling from Kings School Rd. After taking my kids to daycare I am able to get on the t, connect to wifi, and start answering work emails on my computer and start my day as a CPA on my 35 minute commute. The silver line offers my a flexible commute while not wasting time sitting in traffic.
Additionally, the silver line is an option that my family and I use often to get downtown for concerts, shows, games, and festivals. By eliminating public transportation that lowers the likelihood of people going downtown for events.
Limiting public transportation has an obvious impact on Pittsburghs urban carbon footprint. We should be doing what we can to explore travel alternatives that are less wasteful than gasoline cars.
By eliminating services you will be forcing riders to use alternatives such as ride shares which unproportionally transfers money outside the local economy.
Perhaps the department is justly alternating schedules due to demand however eliminating a service begins the process of alienating users. The department should explore ways to attract riders. Advertising WiFi would be a start- no one knows there is WiFi on the trains. Access to load port authority cards online rather than a pay station would be a huge improvement and convenience (DC has had this for 15+ years). There have been numerous times that I have decided to drive in to work because I was unable to access my card to see what the value was on it or unable to add funds to it to ride.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am writing to express my extremely high concern about the dramatic cuts to the PRT. The PRT is a lifeline for my family and I. We use it for everything: to commute, to go to doctor's appointments, to buy food, and to get to work.
The current cuts have already been frustrating as buses that are already infrequent are cancelled.
This isn't just about us though. So much of Pittsburgh relies on public transit, especially for the economy. Getting to work is hard enough: the proposed service cuts will make it impractical for many and even impossible for others.
The city needs to consider its priorities to keep us safe by making our city livable. Bus drivers do so much more good for us than the police. Poverty and desperation feeds crime; security comes from having basic life needs met, which includes mobility.
The Pittsburgh bus service has already gone from solid to borderline since the start of the pandemic. I am strongly considering moving to another city that has more reliable public transit.

Other comments (bus and rail fare increases):
First of all I do not believe that the entire Allegheny county should have to pay for the PRT mismanagement. Also I do not want to pay higher taxes just to cover the PRT deficit

If you want additional funding from the state every county in the state of Pennsylvania should have to contribute to this, not just Allegheny county residents.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
A reduction in transit routes would impede my ability to travel to and from work, as I know it would for many others, which will impact my income and have a knock on effect on Pittsburgh's economy. In particular, eliminating bus services after 11pm will prevent me from getting home from regular shift work at a hospital where my shift finishes at 11pm. Leaving Pittsburghers who work late at hospitals, restaurants, bars etc. stranded is unacceptable. People's income will be drastically reduced by being forced to take more expensive forms of transportation, adding further stress to families and making it more difficult for businesses to stay open - due to the difficulty both for their workers in finding transport and for citizens who don't drive to patronize them.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The cost of my bus pass is already very expensive - an increase is not acceptable when you consider that free transportation is offered to everyone who works for University of Pittsburgh. It makes no sense for workers who earn less than $40k per year to pay over $100 per month for a transit pass, and yet lecturers and scientists who earn upwards of $60 000 per year are taking the same transport for free. The University is failing to pass on economic benefit to the community if its well paid staff and lecturers do not even pay their way to support essential services in the community such as transit. Consider placing an income cap on free transit for University staff, rather than raising costs and reducing service for the poorest members of our community.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Cutting off rail service to areas of the South Hills will greatly impact consumer activities going in both directions. We rely on the rail for access to the city. Some people in the city rely on the rail to come out to the South Hills for shopping purposes. It is a symbiotic relationship where everyone loses if the routes are lost.

I would no longer be able to access medical care locations
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
There are far too many people who will be impacted by these service reductions for anyone at PRT and in local government to sit idly by while the economy is impacted. To think that people can simply move elsewhere at the drop of a hat or find alternative means of transportation to get to their jobs is ludicrous. Riders should not have to shoulder the burden of fiscal irresponsibility of both the PRT and the state. We have been listening to this same song and dance for over 2N/A years now. Cut routes, raise rates. In that same time, and I do understand that the funding sources are separate, light rail service was extended both to the north shore and thru overbrook. What in the world is the point of this construction work when you are eliminating access to large swaths of people who depend on the pre-existing routes? If they can't get to and from work, where is the income going to magically appear from to use these "perks" of extended light rail lines? Why would they care if there is no benefit to them?
Let's focus on another loss of funds, yes? How about instead of punishing daily riders who need transit to get to their places of employment, and who pay the fares, we shine a microscope on the free babysitting that school age children are getting and the college students who ride for free? Why are taxpayers footing the bill and also suffering the disturbances, stupidity and lack of social graces that comes as an added gift with these non paying individuals? Its absurd. Charge them or the schools or both. Who in the world benefits from these idiotic measures? Not the daily adult riders who continually have to endure service cuts and fare increases while the freeloaders remain clueless, classless and obnoxious.
Drivers. This will impact your employees too. PRT, you consistently demonstrate that you could care less about your employees. I will use the above example of school riders. Bus drivers are not babysitters. They should not be expected to shoulder the burden of dealing with teens acting out while they are operating a giant rolling death trap while navigating shared roads with an increasingly inept bunch of drivers. You are putting much too much of a burden on them. And their reward is, "oh sorry, we're eliminating routes so your job is going away too." Unacceptable.
The city of Pittsburgh, the State of Pennsylvania and PRT need to think long and hard about the people who work over night or who have shifts during the day that end later, those who have multiple transfers to get to and from work. There are hotels, bars, restaurants that have staff who work later than 11pm. Do you suggest that they simply adapt? That they wish magic carpets or portals into existence? That they move downtown? It's not exactly income friendly. Or particularly safe. There is zero excuse to put this on riders AGAIN. Instead of worrying about prettying point state park for the umpteenth time, installing pottys, obsessing over the nfl draft thats going to shine a spot light on the existing inefficiencies(not gonna lie, I am excited) why don't you work to figure out how to not hurt working class people. They deserve better and they will let the politicians know it at the ballot box. Figure this out.

Other comments (bus and rail fare increases):
During the last route downsizing as opposed to confirming ridership on each trip of each route reductions were determined by total route ridership thereby eliminating some bus trips that were near capacity. An example of this was the CO which had few trips but were well occupied.
This caused the Coraopolis park and ride to go from near capacity to 80 percent empty. The assumption was that customers would simply ride the then 21A which seldom happened. A similar thing happened to the Warrendale express route that picked up at the park and ride adjacent to I79 . It was jammed starting on the introduction of this service and never diminishing until it was eliminated.
Secondly PRT is overly concerned with University of Pittsburgh student ridership even though many of those students were never Allegheny county residents and after their studies ended were not going to remain here. To add insult to injury the original agreement with Pitt resulted in the then Port Authority receiving less than 20 cents a ride.
Thirdly the attitude that the state and thus the states citizenship is failing to provide sufficient financial support for PRT and actually for mass transit state wide reeks of entitlement especially when you consider that the vast majority of those citizens receive no benefits.

Other comments (bus and rail service reductions):
With all the eliminations, it will really impact the South Hills. A lot of people will no longer have as easy of access and convenience as they have enjoyed for years. I think other funding routes or alternatives should be looked at, not elimination of the routes. I live by the silver line and use it to go many places along the line. I do not want to see it eliminated. Maybe cut down on the times when there is minimal ridership. I was actually hoping it would expand to eventually include a route to the airport.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I already have very little flexibility around buses I can take to get to school - I often stay late doing work and services after 11pm are essential for me to get home safely. I struggle to get buses that arrive when I want to arrive at school, and often have 45 minutes between buses that take me directly to school. When I miss the bus, I have to get someone to drive me in, which defeats the point of public transit and increases traffic unnecessarily. Infrastructure requires investment in order for people to use it, and cutting down the services reduces the reliability and flexibility of using public transit, which means fewer people will use it, thereby causing a negative feedback loop and increasing the amount of traffic on the roads.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Luckily I pay a transit fee to my school, which then provides me with a pass to take public transit for free, but I think public transit should be affordable for everyone.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The costs of a car and all the other costs that comes with are too much of a burden for some people that I know. These people rely on PRT to get to their jobs and to services not in walking distance of their community. While I personally don't require PRT I often use to to get around to businesses since it is reliable and convenient. When I heard about the changes I looked at the financial statements for the last few years, the rising costs of paying and providing for the hard working men and women of PRT has not been meet by the funding from the state of Pennsylvania. These people and PRT support our city and county and must be supported.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I understand that it is necessary to raise fares to try and continue services due to the severe lack of funding

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Transit is already precarious, inaccessible, and costly for a large majority of Allegheny county residents. In combination with years of gentrification, those who need transit the most have been forced to move further away from areas with transit access - as they have been priced out from these neighborhoods. These service cuts and fare increases would further disadvantage those who are already struggling. PRT must consider cutting salaries for its executives and planners before cutting service. While fares might need to increase to help with shortfalls in federal & state funding, PRT should lobby the county and city to consider ways they can assist in meeting these shortfalls. It is simply unconscionable to further burden riders - especially as their access is also being restricted.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I would lose access to a lot of useful locations throughout South Pittsburgh if the silver line closed down. I would have to resort to driving on the overcrowded roads with aggressive drivers
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
It will cause teens to cause trouble and steal rides
Other comments (bus and rail fare increases):
I see young teenagers skipping fares because they are from low income households. These teens cannot afford to pay 2.75 a trip. Mass transit should not be this expensive

I have seen dozens of teens jump fences and run past payment booths. This will encourage more dishonesty

I have paid my fare using change because I do not make great income. I typically use a connect card to reduce the cost of multi-vehicle trips

I cannot afford a fare increase with the current economic difficulties like high groceries and low wages
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Late night workers and disabled riders need to have access to transit. What about the food service and retail workers that get of at 11? Or the ones that work overnight?
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
This is unfair and bordering on discrimination

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The 38 busses are full in the mornings & often completely packed going home
I previously lived in Dormont, & the 36 & 41 were always full.
There is no way any of these lines should be reduced or eliminated!
I would have to get a new job since I work Downtown, & I absolutely cannot afford to park.
At 56, finding a new job isn't necessarily easy, so I need the bus in order to survive at this point

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
With these service reductions, the bus lines I take to get to work (28X, 29) will either face major reductions in service or be eliminated entirely. This is extremely damaging to the whole community for those who use PRT to get to work.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
PRT already has one of the highest bus fares in the nation, and these proposed increases will simply exacerbate this issue. This will sharply decrease PRT's ridership and overall becoming increasingly more costly for the company as a whole.

I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The reductions noted for my community also include closing 3 bridges in and near my community. The Avalon bridge is in need of repair and PRT has made steps to begin those repairs. However, now we have hear the bridge is to be closed. The Ben Avon bridge is also slated to be closed. Those homes located between those 2 bridges would have no access to leave their homes. There are no other access roads to those areas. Emergency vehicles would not be able to reach them. This is a crisis to the communities. The municipalities are not in a position to take on costs to repair those bridges and keep them open. PRT is paralyzing the Avalon, Ben Avon and Emsworth by eliminating the routes AND closing the bridges in those communities. We moved to this community because of the bus access for a disabled family member who cannot drive due to a visual deficit. This is a devastating loss to our family.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
Other comments (bus and rail fare increases):
Fare increases AND removing all the bus lines to downtown area is unacceptable for working individuals to be too and from work is unacceptable. The communities already have parking issues - limited street and off-street parking. People will may not have the funds to purchase vehicles. Or they cannot drive and rely solely on the bus services. Drive times will increase with all the additional cars on the roads. Parking issues will also increase in the downtown area due to increase parking demand - both in space available and cost increases.

I am responding regarding my husbands need for PRT services. He is unable to drive and uses PRT for all his activities. Also as a municipal official concerned about the bridges closing in Avalon, Ben Avon and Emsworth.
How do you identify yourself? Select all that apply.
Prefer not to answer
What is your age?
65-74

Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
When my husband and I were looking to purchase a home in 2N/A2N/A, we limited ourselves to communities with bus line access. We bought a home in Emsworth because I could take both the 19L and the 14 to get to work. PRT is now proposing to eliminate BOTH lines, leaving Emsworth residents with no access to public transportation. I may be able to ask family and friends to help me get to and from work, but the elimination of all public transportation options severely limits my ability to be independent. And that's very depressing. Sometimes it's challenging enough to be an adult who doesn't drive in the Pittsburgh area. These changes will basically cut me off from anything that's not within walking distance.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I am willing to pay more money in fares if the routes that I rely on are not eliminated.

Oppose or support specific reductions.
OPPOSE: 14 OHIO VALLEY (Elim.),
SUPPORT: 19L EMSWORTH LIMITED (Elim.),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
14 (and 19L) provide a key service for some north boroughs communities for access to downtown both for work and for support of our loval economy. I've taken these routes at time for transfer downtown to get to my job in Oakland, but there is critical need for others who use them daily. It is critical to these communities to keep at least one of these routes.

Service change impacts (bus and rail):
N/A
Other comments (bus and rail service reductions):
PRT leadership needs to be changed in light of their inability to adjust services to meet the continued decrease in ridership demands. This includes the Board that awarded bonuses and pay raises while the PRT deficits revealed an inability to manage at all levels. How can any operation continue to justify a bus route serving less than 1N/A people with a bus capable of hauling 8N/A riders? This is a misuse of taxpayer trust.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Increases should continue to match cost increases for the labor, fuel and equipment spent on providing services. The PRT needs commonsense leadership to manage the PRT as a business to efficiently move people to places of employment and back home subject to the ridership demand.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I use the 2 bus to get everywhere i need to get. doctors appointments, work, the grocery store, visiting family, etc. I also know so many people personally who is serviced by this line and would also terribly impact their lives. For a city that prides itself on being "livable", a good public transportation system is necessary. Before the cuts the system is strained, and with the cuts it will be detrimental to pittsburgh natives

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This will hurt every member of the community. The most vulnerable poulations, including pregnant women, people with disabilities, newcomers, and low-income people will be hurt the most. Basic life needs will be hard to meet, including getting to medical services, grocery stores, even laundromats. People will have intense financial strain and stress, which will lead to overall decreased public health. Businesses will suffer and traffic will increase. Several environmental issues will arise, including overcrowding, pollution, and traffic accidents.
PRT Nees to increase bus lines, not decrease. Many of our region's issues are because of limited public transport options. Our city will be unlivable with these changes.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Already not affordable - this will make it even worse. It is unacceptable for this to be the cheapest form of transportation.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
It already takes a long time for me to get from my home to town and past town for work. I also use transit about 5 days a week, so I'm already spending a lot on a low income. This will make it more difficult to get proper transit at the times I need, especially when I have to transfer to another bus or light rail to get where I'm going and need to be there for a set time.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
I'm using transit 5 days or so a week, and having to reload my card at least once a week or every other week. I have to work it into my budget as it is, so this would create a higher expense as I'd have to load more onto my card at a time to keep it going long enough between pays.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I recognize the difficult financial realities that are prompting the proposal. In my opinion, the proposal needs to clarify how the reductions avoid creating a death spiral for impacted areas and populations - infrequent service and higher rates leading to lower and lower ridership, with subsequent additional cuts, and so forth.
I'm also wondering if fare increases coupled with an expansion of the current discounts for SNAP users or others who are least able to afford them? If so, that's good to know. If not, that needs to be a priority. For that same reason I'm particularly concerned about loss of ACCESS services. I can hop on my bike if I need to get somewhere but obviously I can't do that if I'm blind or I've broken my hip. We can't afford to isolate low-income people and the elderly without transit - problems (physical and mental health, nutrition, employment) compound.
I'd recommend a participatory budgeting exercise, allowing citizens to wrestle with these questions, tell you their top priorities, and perhaps suggest innovations and new partnerships.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Again, I'm not asking the PRT to spin gold out of straw, I'm asking for more information on the way these fare increases impact different populations. I just got back from two weeks in Boston where I can get from Mattapan to Alewife for $2.40 on the subway - much more quickly and comfortably than a bus. I feel like there may be possibilities we're still missing.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Ultimately I think we need to design our transit around the needs of people with disabilities because a) we all either are or might be in that population in any given moment (people with disabilities call those without "TAB's" or the temporarily able-bodied) and b) services that are good for that population are good for everyone, with or without a disability. These cuts are particularly concerning.

Other comments (ACCESS fare increases):
The fare increases listed above for ACCESS fares are reasonable. Obviously, no one wants to pay MORE for the same service, but increases are part of life. I would hope that, if more funding is obtained, the proposed increases would be cut back or eliminated.

Elderly and disabled people will face a hardship if service is cut, or if fares are raised. The latter is the least of the two evils.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Rather than completely cutting the above lines, why dont you just change the frequency times for ALL lines? IE rather than the red/blue/silver lines coming every 12 minutes, have them come every 24 minutes.
Or dont totally cut the silver line and leave the people in the South Hills that depend on the line stranded, but instead run a silver line local car between Library and Wash Junction only (like how its being run currently from Feb - Oct 2N/A25
Or, cut the blue line and keep the silver line. people that live near rt 19 can still take the red line into work (and they can take the red to Wash Junction and hop off and take the silver the rest of the way in), whereas the people that live near rt 88 have no other alternative line to even get to Wash Junction
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
While i dont agree with the fare increase (since we are one of the highest fare costs in the nation)... i would be willing to pay .50/day to keep the line

BUT if you completely cut the silver line, not only would i have to pay extra on gas/time to drive to a new bus stop, i'll also have to pay more money for an increased fare AND an incredible inconvenience and longer commute time

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Elimination of the Silver Line will have a significant negative economic impact on Bethel Park as a whole and will hurt property values. Reducing service will inevitably reduce ridership, not as a sign of lower demand, but as a result of PRT being less convenient and reliable.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Increasing fares will inevitably reduce ridership, not as a sign of lower demand, but as a result of PRT being less convenient and reliable. Fares are already very high, and reducing ridership will result in a decrease in revenue.

Oppose or support specific reductions.
OPPOSE: 28X AIRPORT FLYER (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 71 EDGEWOOD TOWN CENTER (Elim.), 75 ELLSWORTH (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I have a senior pass, so the rate increase would not affect me; but the reduction in services that last time, with fewer buses going downtown has been difficult. Since the 71A & C are closest to my house, I can't get downtown without taking two buses, or I need to walk the 3 blocks to Fifth and hope that the scheduled 71B is actually running.
It may not amount to all that much, but I can't tell you how many times I've gotten on the bus to the find the cash box/scanner is not working. Losing the revenue on a given route for the whole day seems like a major issue.
And I still don't understand the proposed rapid transit from Oakland to downtown. Seems like a massive expense, a mess to traffic downtown, and reduced services all around.

I would have to move to another home/dwelling where transit is available
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
My family specifically purchased the property we have now because the 14 would be available and I relied on this near-exclusively when I worked in downtown Pittsburgh. It's still a priority for us to be able to get to the city from our location, and I think back on all the other PRT routes that my neighbors and I relied on to get back and forth to work. This plan proposed to gut crucial transportation options along the whole of the Ohio Valley.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If these fare increases only work when in conjunction with the proposed cuts, ridership and utility will be cut so much that they likely won't matter. Passing this plan likely means the end of viable public transportation in Pittsburgh and will further deteriorate downtown.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
It currently takes my husband and me two buses to commute from our home in Spring Hill to our jobs at the University of Pittsburgh in Oakland. Reductions in bus service would force us to use a personal vehicle to commute to and from work, increasing our monthly transportation expenses drastically as well as the mental stress of coordinating our daily lives. Our employer provides free bus passes for employees; it is important to utilize this benefit for both our personal finances and the positive environmental impact from choosing public transportation over daily vehicle usage. I hate to see services like this cut and costs continually increase in a city that already has such an abysmal public transportation infrastructure. I strongly oppose bus and rail service reduction that will greatly impact my neighbors and my family. The city of Pittsburgh and its residents deserve a robust public transportation system they can rely upon.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I strongly oppose the bus and rail fare increases. People in and around Pittsburgh rely on public transportation to commute to their workplaces, to reach healthcare services, for grocery shopping, to spend time with their loved ones, for recreation and daily living. Increasing the cost of this necessity is unfair in a world where the cost of living CONSTANTLY increases and our government hasn't raised the minimum wage in over a decade. People simply cannot afford to live or to work and fare increases like this are an absurd stressor.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The proposed cuts are in direct opposition to the purpose of public transit in the first place. These cuts would drastically impact lower income families, elderly residents, school-age children, and working professionals, alike. By continually cutting access to public transit, you are creating a self-fulfilling prophecy of low ridership. Every time a bus route with low ridership gets cut, the riders it still has are forced to find more reliable methods of transportation, decreasing ridership further, making future service cuts even more likely, and so on. Reliable public transit is vital for us to survive and grow as a city, making it more accessible.
I understand the state's role in these proposed cuts and I believe they *must* take action, not only to preserve these routes, but to expand them.

My bus P16 & P67 are scheduled to be eliminated which means I have to drive to the Wilkinsburg Park n Ride which is down a steep hill, in winter it will be not too safe I am not good in the ice and snowy conditions. Also gets dark quick in winter months it's dark at 4pm I work until 5pm and the parking lot is not safe and you could get accosted or robbed. Now I get the bus in front of my place where I live and dropped off safely.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Service recipients at my workplace depend on reliable transit. Their experience would be made even more difficult if these cuts take place.
Additionally, I purchased my house in proximity to transit access thoughtfully to increase my household's opportunity to reduce our car usage. While that is not a reality in this season of life, it has been in years past, and we do hope that the option will continue to exist as our circumstances evolve with time.

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I do not use the Silver Line or Red Line everyday but I know people that do. When I pass the Library Station in the morning, several people are waiting on the platform for the next trolley. Not only will eliminating the Silver Line affect these people, it will negatively impact our community. There was a whole housing plan developed at the end of the Silver Line where people bought homes or townhomes in order to have close access to public transit. What happens to them? Are they going to be forced to drive downtown adding to already congested traffic in order to get to work? There are several businesses along this route that would also suffer if the Silver Line is eliminated. The Trolley Stop Inn is right next to the West Library stop. I am sure there are people that use the trolley to get to the restaurant. Bethel Park has many businesses along Brightwood Rd that are easily accessible from the trolley. You would be cutting the sales of all of these businesses if not killing them. You would be cutting off the entire South Hills from easily accessible public transit and adding to already congested Routes 19 and 51 and any other route we use to get to and from the city and our homes.
My other concern is sporting events, concerts and other events in the city that people use the Silver Line to get to and from. All trolleys are packed full with standing room only especially for Pens games and I would think Steelers games as well. Again it comes down to overloading the roadways because there is no Silver Line and a reduced Red Line. In the end, I believe it would end up costing everyone at least something if the Silver Line is eliminated. The cost would be in the form of money, jobs, convenience, repairing roadways, accidents, property, childcare, etc. Please reconsider eliminating the Silver Line.
Thank you.

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I moved to the Summit Station in South Park in 2N/A24. One of the big draws was having the "T" and Silverline access at my front door. As a senior citizen in this community, it's important to have alternate modes of transportation, participation to go into doors Pittsburgh. I don't know how much longer I will be driving, and it was reassuring to know that if I did have to get to a store I could ride the "T". I understand if service needs to be reduced but please don't eliminate it all together. Lots of people ride the "T" from the Library station and it draws ridership from both Allegheny as well as Washington County. If fares need to be raised nominally, I would support that versus doing away entirely with the service. I am imploring you to reconsider this decision, one that would put many people in peril. Thank you.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
1 day per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Shopping
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
45-54
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$100,000 to $124,999
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting services, especially the silver line, would leave so many people stranded. The alternative, at best, would mean traveling to and paying to park at a station serving the blue line, adding even more hardship as you raise your fares.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
The monthly and yearly increases in particular seem rather egregious and excessive. And once you cut bus and T lines, riders are effectively paying more for a lesser public transit than was previously available. It's like paying more money for a half bag of chips.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Cutting bus routes will greatly impact parking downtown as more people will need drive into city. Parking already a problem and will only get worse.
Other comments (bus and rail service reductions):
This will greatly impact daily commute to downtown for work. Parking will become worse as more ppl will need to drive causing increase traffic and more parking problems. My company encourages public transportation as an alternative to alleviate parking garage shortage. If the proposed cuts go into effect, this will negatively impact an already struggling downtown area.

Other comments (bus and rail service reductions):
My husband and I currently work to take care of our family. We currently only have 1 car and can only afford it right now. He works in downtown and even sometimes travels into Oakland when need too. We live in South Park up the street from the library station. Being so close to the t is amazing. He has access to get to and from work without the high additional cost of a second car we can't afford. My kids and i love to take the train as well to go downtown for holidays and sporting events. It's best to take the rail system then pay the outrageous parking in downtown to park. I have and know of alot of people who use the rail system especially in south park and really worried about it being taken away. Not everyone has the money to have mutiple cars, ability to pay outrageous parking fees 5 days or even 6 to 7 days out of the week for downtown.i wouldn't be opposed to fair increases if the silver line doesn't get shut done. What about the people who don't even have cars, so how would they get to work downtown or anywhere that live on the silver line. I'm begging please do not take the silver line away.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
Shopping
Medical care/appointments
Entertainment
Social activities
Religious activities
How do you identify yourself? Select all that apply.
Prefer not to answer
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The silver line is part of why we chose to move here. I might suggest increased fare or taxes to the tax dodgers living in Peters Twp who ride from library. They certainly aren't contributing.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I mean, this is understandable. But Again - perhaps make it higher for non Allegheny county residents. Just a thought.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Increasing fares will reduce ridership. While reducing fares would increase ridership. Why try to target less riders and empty buses with higher rates instead if marketing to those who would ride if fares were lower. If you want to fill the buses, reduce the rates. Otherwise, people might as well drive and park. For instance, 1N/A riders may pay $3.N/AN/A per ride totaling $3N/A for an inboind trip. Or you can get 5N/A people paying only $2.N/AN/A for $1N/AN/A for the same trip. Now multiply that by numerous trips per day at various sites. Make it more affordable than driving & parking and people will use it.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Why would people pay more for a bus if they can pay to drive and park? You need to make the fares better than the other options or people will drive & park instead. Reduce fares to get more riders instead of increasing fares and reducing passengers. It's simple math. Ten people paying $3.00 only totals $30 per trip while you can get 50 people willing to pay only $2.00 which would total $100 per trip. Increasing prices will never work. You've tried and failed. Learn from your mistakes. Reduce rates and more people will use the service.

Other comments (bus and rail fare increases):
Im on a fixed income. I'm not able to work a couple more hours to pay for a bus. Don't pay your drivers so much to start out. Get rid of some of your overpaid people and you would be able to keep your company. I think it is ridiculous. Building these crazy route changes. Then cutting 40 routes. What sense does this make senior citizens and your kids take these buses to and from school.

OPPOSE: Y46 ELIZABETH FLYER (Major Reduction), SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
The Silver Line is a lifeline for so many of us. We depend on it to get to our jobs in downtown Pittsburgh. If this is taken away, we don't have means to get to another source of transportation. I would be forced to take an early retirement, which is not financially feasible for me. I need to work. If anything, please leave the silver line and reduce the frequency so at least this area would have some means of transportation and not left dry.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would be willing to incur a slight increase to save the Silver Line. However, why are you spending money on the Oakland project and replacing railings and bus shelters if you are short on money. Unless they were damaged, that should not been a priority. Means of transportation should be primary.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I work in low income senior housing. These changes will significantly impact the residents I work with on a daily basis. Some struggle to just make it to the closest bus stop at the top of the street due to limited mobility and/or a disability. The residents who live in this building already had to deal with losing the bus stop that was directly outside the front entrance years ago due to complaints from the residents in the neighborhood because the busses would idle outside. The residents had to adjust to that loss, but still managed to get to the relocated stops on Grandview Avenue which is not an easy walk for all of them. In the neighborhood that I work in, the plan is to ELIMINATE the bus routes altogether and the proposed solution is to have the residents take the Incline to Station Square. The walk to get on the Incline will deter most of my residents who now barely make it the two blocks to the bus stops at the top of the street. If this happens my residents will be totally isolated, as the location of the building is not close to the stores, pharmacies, banks, etc located in Mt. Washington. The other option would be for them to predominately use ACCESS, but this method of transportation is also part of the route reductions and rate increases leaving my residents with very few options. Also a lot of my residents are hesitent to use ACCESS because they may have to wait hours after an appointment or shopping trip to return home due to waiting for the vehicle to arrive and then having to make several stops along the way to finally get back to their home/apartment. I fear that their ability to even schedule a ride will be significantly reduced as the demand for ACCESS will be so great they won't be able to accommodate the need, as ACCES has already struggled with having enough drives and vehicles to meet the needs. Again not only are the residents seniors or those with disabilities, they are also low income so paying more for their transportation or using other means of transportation such as Uber, Lyft, Ztrip, etc limits them because of the cost as well as increases risks to their health and safety. I can see more and more people missing medical appointment, not getting their medications, more health problems due to limited access to get supplies, etc. One of my main job responsibilities is to help my residents apply for benefits to help make their lives easier so they can age in place, but these proposed cuts, increases to fares, and elimination of routes would cause more harm than good to the population I serve.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The population I work with are seniors or those with disabilities, they are also low income so paying more for their transportation or using other means of transportation such as Uber, Lyft, Ztrip, etc limits them because of the cost as well as increases risks to their health and safety. Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
If bus routes are eliminated or significantly reduced and ACCESS is the alternative option for their transportation I can see a lot of people not being able to get rides to appointments, activities of daily living, shopping trips, etc. ACCESS has already had some difficulties in meeting the needs of the residents I work with due to not having enough drivers or maintained vehicles, causing delays in their abilities to meet their needs. These reductions will have seniors and those with disabilities left secluded, without positive interactions and opportunities for socialization as well as increased medical issues. People need low income transportation options that do not limit their needs and wants to the point of leaving them isolated and ill.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
The population I work with are already low income and have to budget for the things they need. With the rising costs of utilities, food, cuts to medical benefits, etc leaves them with uncertainty and fear that they won't be able to "make it" financially putting a lot of things in jeopardy for them. If the cost of their transportation increases they will have to cut costs in other areas, making it more difficulty for them to remain as independent as possibly.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I use T Service to get to town often, this is to avoid traffic/congestion, as well as to avoid driving after having a few drinks in town. For me this would be a major inconvenience and safety factor, but I also recognize that these cuts would have huge impacts to people's livelihood. People rely on these resources, and in fact I think we need to expand the Pittsburgh Transit.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If this maintains current levels and allows an expansion, I support this minimal increase. But with this large of a deficit, there are clearly issues with how things are being managed, and that needs to be corrected.

I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
I don't drive. Based on the proposed changes I would have extreme difficulty getting to work. I would have to walk on busy roads (no sidewalks or streetlights) to access a bus stop and then board a bus that would take a lot longer to get me to my destination. The buses I currently take (N/A5, N/A12) are designed for business commuters and these are going away.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The proposed changes will essentially cut off my entire community from bus service. The bus I use to commute to and from work, the Y49 is always full. Cutting this bus route will damage my life as well as the lives of my neighbors. I also do not understand how, up until a month ago, the proposed changes for next year had more busses running more often, and now you are planning to cut half of the busses in the city. It makes no sense. Why was money spent to improve the south busway when it will hardly be used? Maybe consider the money that you are spending before making decisions that will hurt people. Also, I have been on busses many times that are unable to process cash payment. If income is a problem, it would be a good idea to make sure that you are able to collect fare from all riders, not just those who use a connect card or pay through an app. I would also be interested to know how much your higher up employees make. Did they all receive bonuses last year? I would be willing to bet that they did. And what of your drivers? I have been hearing ads on the radio that you are looking to hire drivers. Will they all be laid off in a year from now? Who would apply to work for you knowing that there is a time limit on their employment? None of it makes any sense. You need to overhaul your spending and do better. You have a responsibility to serve the people of Allegheny County, and you need to stop taking that position for granted.

SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Personally, I have no issue with the fare increase so long as the service cuts are not made. I do take issue with paying more for less, though. That is just bad economics. If the current busses and trains continue to run, though, I have no problem with paying slightly more to support that.

Other comments (bus and rail service reductions):
I work with the refugee and immigrant population and these cuts will GREATLY impact their community. Our immigrant population relies heavily on public transportation to attend community events and to complete necessary appointments. With this decrease, I'm not sure how we will move forward as a community.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
This will be a major inconvenience as this is my main source of transport.
Also the reason I have purchased a home were I am located
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Not only will I have to start driving to the city and Oakland for work at the University of Pittsburgh in an already heavily congested road but parking is already scarce and outrageously priced. Without parking even driving is a major inconvenience that will greatly increase travel time with more cars on the road and will increase parking fares if you can find parking since there are not enough parking spaces for all drivers.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
These changes make this city less desirable to live in
Other comments (bus and rail service reductions):
Reducing service like this will decimate ridership and eliminate affordable transportation for lots of people. With fewer options to move about the city, more people will take cars which will increase traffic and pollution in the city. People who can not afford to have a car will be left without any alternative modes of transportation.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I think this is a modest fare increase, and is still a lot better than the alternative of needing a car. I would actually support even higher raises to fare increases if it means that service is not stopped.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Services should be expanded, not cut. Allegheny County and the greater Pittsburgh area face many growth challenges. Robust public transit service throughout the region is best delivered by one entity, Pittsburgh Regional Transit, in a county/region that is otherwise extremely balkanized. There are over 1N/AN/A individual municipalities in the county. Few of them have the resources to provide public transit on their own, which is why PRT service to all parts of the county is essential.
Public transit is a form of basic infrastructure that attracts new residents to our region. People are not interested in living in neighborhoods that are not connected to their surroundings. Public transit is a vital system that moves workers and students around the city to jobs and schools, and public transit activity sustains local businesses in and around transit hubs and stations. It is well established that every dollar invested in building and operating public transit multiplies in the local economy many times over providing jobs and leading to demand for goods and services around transit stations. Services should be expanded, not reduced.
As I understand it, the final budget approved by PRT for the next fiscal year is approximately $54N/A million. Considering, that budget is meant to provide transit services for more than 1 million people who live in Allegheny County, it is a remarkably thrifty budget. Consider that the New York City MTA has a budget of roughly $2N/A billion people to serve a market of 15 million people in New York, New Jersey, and Connecticut. WMATA in Washington/Maryland/Virginia has a budget of nearly $5 billion to serve a population of approximately 4 million people. SEPTA is slightly more thrifty than those two examples, serving a population of nearly 4 million with a budget of $2.6 billion.
These examples suggest that providing 1 million people in the Pittsburgh region with public transit on a $54N/A million budget is a shining example of efficient public spending. It is simply an unavoidable truth that a mission of this size cannot be achieved for any less than the finalized budget. If the funds are not available through rider and local tax revenues, the state must make up the difference. Public transit is essential to growth and remaining competitive in the modern economy, and the state must make up the difference.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
25-34
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The changes hurt the community overall and continue your trend of cutting service.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I work with underserved Pittsburghers and the proposed changes would have major negative impacts on their ability to live healthy lives.
Other comments (bus and rail service reductions):
Public transport access is a cornerstone of mobility for city residents, especially among the poorest and most underserved of us. It allows residents of poorer neighborhoods to be able to get to areas with better jobs while continuing to live in cheaper areas. Cutting off services in these areas will force people to either stay where they live and languish or leave to try to get (more expensive) housing elsewhere, again leaving their original neighborhood worse off instead of being able to stay and invest in and build there community. Failing to ensure that people have transportation to access healthcare, jobs, healthy food, and loved ones will cost our city far more than these cuts will save. There is no better way to maintain a functioning government than through the thriving of our people. To cut these services would be a horrible loss to this city and beyond.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Higher fares disproportionately affect our poorest residents who are also the most dependent on the services they are going to lose access to. It increases financial barriers to employment and preventative care, which will ultimately lead to higher cost burdens for the state for public benefits and Medicaid. And it will increase car use for all people who have access to cars, which will again disproportionately affect the most disadvantaged residents of our city who live in the poorest, most polluted areas or do not have the means to avoid air pollution.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
None of these apply to me
Other comments (ACCESS service reductions):
62% cuts in service would be absolutely devastating to the population that already are not able to utilize standard public transport as easily. These are also people who are most likely to rely on other public benefits including Medicaid. If these residents cannot access jobs, health food, and preventative care, ultimately the health care costs that Medicaid incurs will far exceed the cost of continuing/expanding ACCESS services. This decision would not only be a moral failure for our society, it would also be a financially shortsighted and costly one. I am truly disgusted by this proposal.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
See above.

Other comments (bus and rail service reductions):
The silver line is vital for the south hills. Steeler games and penguin games are especially difficult to Get to without the silver line. There recently was a gigantic plan of homes, townhouses and apartments (Summit station) that was built there specifically for access to the silver line. Elimination of this line will greatly cause overuse and crowding of the South Hills village and Castle Shannon line, As well as overcrowding at Washington junction

Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Choosing the location of our home was impacted greatly by the availability/convenience of having the T station so close. It has provided transportation to both social events and employment along the light rail line. I know many of my neighbors use this as their transportation to work as well. I fear losing this access will not only decrease our property value, but also impact the employment of my neighbors as well as the businesses along the light rail line. If rates need to be increased to continue this public service, I support that. I do not support eliminating access altogether.

Other comments (bus and rail fare increases):
PRT needs to use proper data analysis in their decision making

Management should be changed if during the deficit accumulation no cost reduction measures were implemented by PRT

My name is Alexander Campbell and I live in South Park with my wife and two children (soon to be three). I'm a management consultant at LTI Mindtree, with experience advising Fortune 500 clients across industries including technology, healthcare, oil & gas, and banking. My focus is on operational excellence, risk reduction, and technology-driven transformation. I serve on the Alumni Board at PennWest University and have also coached varsity football for the past 4 years in the area . I'm writing because I want to help prevent Pittsburgh Regional Transit (PRT) from making decisions that could cause irreparable damage to our region's mobility, economy, and working families.

Recently, PRT announced plans to raise fares from $2.75 to $3 and cut service by nearly 40%, including full elimination of 41 routes, major reductions to 34, and slight cuts to 20 more. These changes—set to begin in February 2026—would leave 19 municipalities without public transit access and eliminate late-night service after 11 p.m. Meanwhile, ridership has plummeted post-pandemic, from 192,969 weekday rides in Dec 2019 to just 102,507 in Dec 2024. A majority of current riders are low-income, with 51% earning under $25,000 per year.

My specific concern lies with the Silver Line, which I and many other South Hills residents depend on. Based on publicly available data and images from PRT's own dashboards, the most heavily used Silver Line stops include:

- Library Station B
- Lytle Station
- West Library
- South Park Road

Despite this, PRT has proposed reducing or eliminating service here—yet no mention has been made of conducting any third-party audit of data accuracy, operational efficiency, or fiscal accountability. If ridership data is being used to justify cuts, the data should be independently verified first.

Recommendations and Mitigations

1. Review data gathering accuracy and processes to ensure data insights are usable and accurate.
2. Improve Silver Line performance and perception.
Mitigation: Rebrand the Silver Line as a "bullet" commuter train, focusing only on high-traffic park-and-ride stops to reduce travel time and increase appeal to new riders.

3. Explore dynamic fare models.
Mitigation: Introduce off-peak discounts and bulk pass options to increase ridership and improve farebox recovery without burdening everyday riders.

4. Begin charging for rides in the Free Fare Zone (outside of special events like Steelers games).
Mitigation: While this may reduce discretionary ridership, it can add revenue. Offer low-cost city passes or partner with employers to offset costs for downtown workers. Note: the Free Fare Zone was historically subsidized by North Shore stakeholders (Steelers, Rivers Casino, Stadium Authority), but PRT has not disclosed whether it still receives external funding today.

5. Seek corporate sponsorships and partnerships.

Mitigation: Generate new revenue through naming rights for key stations and employer-subsidized transit programs.

I strongly believe cutting routes before cutting internal inefficiencies is shortsighted. Every private-sector business in financial crisis must review its operations and eliminate waste before scaling back core services. PRT appears to be doing the opposite. This is an opportunity to correct course, restore public trust, and design a modern transit system that is fiscally responsible and rider-focused.

Pittsburgh and its areas need public transit we also need more capable leaders to plan us out of the mess that they have gotten themselves into by not reacting to market changes such as the rider decrease from Covid. Minimal changes were made and the riders face the impact more than any others.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
SUPPORT: 65 SQUIRREL HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The silver line was one of the major benefits to moving to Summit Station. Many in our community, including my family frequent the silver line to get into the city for work, as well as enjoying entertainment and sporting events in the city. This would be a major loss to our growing area, South Park and the South Hills. I would be willing to pay a higher fare in order to keep the silver line. Pittsburgh needs more and better transportation options - NOT less!!!
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I would be more than willing to pay more than see the silver line eliminated. Not having to drive in traffic, use gas, and pay for downtown parking is worth it!

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Eliminating the silver line would greatly reduce the property value of my home & the homes of my neighbors in our subdivision (Summit Station). One of the main reasons why a lot of us chose to build here & pay the premium to do so was to have direct access to public transportation. It's bad enough we're kind of forgotten about because we sit on the edge of the county, but to take away our ability to travel into the city & beyond without using cars or ride shares is horrible. We paid a lot of money to have this luxury as it is not very common this deep in the South Hills. Please do not remove the silver line that goes to Library Station. Many of my neighbors rely on it to go to work, those same jobs pay their mortgage & their property taxes which are too high for us to not have the T line here. I personally, rely on it to travel into the city for events where parking is hard, to visit my family when I can't drive & most importantly for my family that's from the city that do not drive or even have cars to be able to visit me & my family. Please consider the lives you are altering for the worst by removing this service.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
I am a South Park resident deeply concerned about the potential cutting of the Silver Line. I live within walking distance of transit and my family uses it frequently to attend downtown events. We have also used it for transportation to and from work. I am concerned for my neighbors and friends who rely on the transit to access work, downtown, or south hills village. I am also concerned for other areas in the city which would be affected by the bus routes.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
This could greatly decrease our home value as it is a convenient way to get in and out of the city

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please do not cut the silver line rail service. It has already been painful enough having to endure the increased wait times due to the Mount Washington routes while construction is being done. This is my main mode of transportation for working downtown, and it is the most affordable option. Please don't take that away from citizens.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
To eliminate the Silver Line would just be a crime and injustice to South Park/South Hills area residents. We rely on the train everyday primarily for work. It's part of my lifestyle and one of the reasons why I moved out to South Park. Personally, I feel that this could also be a set up to just raise prices. If PA transportation used the money they get wisely, they should have plenty of money to not let that happen.. just need to spend the money the state gives us wisely. However, if prices increase a bit, so be it. Taking away the Silver Line will lead to a lot of very pissed off people. Eliminating the Silver Line would also hurt the value of selling my townhome.. please do not let this happen as it is a HUGE part of mine and thousands of South Hills residents. Please don't screw we the people over.... Thank you

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Public transportation in this region is already so lacking and such a travesty compared to most other cities, reducing service should never be an option. It's already so small, inconsistent, and unreliable, if you reduce it more you might as well fire yourselves because PRT leadership would be a completely unnecessary. Don't need leaders for an organization that doesn't do anything.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Loosing silver line would negatively impact a lot of people in my community. For many it is the only means of transportation into the city for work, activities, sports games, light up night, etc. also for major activities shortened hours would cause many to need to find a different way of travel or to not attend at all. Many people would need to find new housing or transport as this option is affordable compared to the cost of a car, maintenance and registration of the vehicle, and even parking in the city. Parking to work in the city every day is unaffordable for many.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
One of the main reasons my wife and I have moved back to the Pittsburgh area was to be in a wonderful city with adequate transportation options while we age. We have talked up the city and it's transportation options to many others that are in the process of considering buying or renting in the city. They have expressed great concerns regarding the discussions of reducing services and we might consider relocating as well. Growth in the city should not be dependent on people having their own vehicles. The reduction of services could be detrimental to the long term viability of the city.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
DO NOT allows the drivers to let people onto the vehicles for free. Anytime it gets busy in the schedule starts lagging they tell people just get on so they can move the bus or the shuttle. When there's a sporting event is when you make all your money that's when all the extra people were on there and all the extra money is made and your drivers are not taking advantage of that all they're worried about is the schedule they're letting hundreds of people on for free one day and there was a Steeler game. They didn't take any money From any riders from at least 12 or 13 stops out Before town because it was so packed they were just jamming people in and moving the bus. Driver just kept saying hurry up get on get on let's go let's go. We gotta keep the schedule. Gotta move the bus. Everyone just get in just get in. Don't worry about it. This should NEVER occur, And especially should never occur on the days that you're making all your money

I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
Other comments (bus and rail service reductions):
I understand this is a problem facing many public transit systems now in other cities (Philadelphia for example), but we have a reliable and clean system that works well. We need to figure out a way to keep all the routes so that it will not affect any of the riders (people not being able to get to work or school).

SUPPORT: 12 MCKNIGHT (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I have been using public transportation for the past 13 years and would be devastated if the O12 route was eliminated. One of the main reasons I choose to live where I do is because of this bus route and the ability to commute downtown for my job. If the route was eliminated, I would either need to find a new job closer to where I live or be forced to drive downtown, which would result in a significant financial impact, but even more worrisome would be the mental impact. I love using public transportation as it allows me to start and end my work day without the unwarranted stress from driving and it helps to reduce cars on the road and reduce harmful emissions. The cost of parking downtown is expensive and I would need to make some changes in my spending habits to cover the increased cost to my commute.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
An increase in fares would still be less than parking. I would accept an even larger increase if it would help save the O12 from being eliminated.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
I am on a fixed income and the increase would definitely limit my activities such as doctor appointments, shopping and other things
Other comments (ACCESS service reductions):
As someone that's needs the service and I am grateful. When you get to be elderly or disabled or other things that take away from normal living. You are grateful to have a service that accommodate you. Most people doesn't have someone to take them places, such as myself. Getting to and from with the Access service is wonderful. But increasing the rate is going to limit my activities and I am sure others too. So I am being very hopeful when I say. PLEASE HELP US ALL WE NEED THE FUNDING THANK YOU
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
Other comments (ACCESS fare increases):
Help us please

Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Cost burden would increase greatly by requiring a personal vehicle
Other comments (bus and rail service reductions):
Public transit provides a cost effective and sustainable option for thousands of Pittsburgh residents. Cutting public transit would tighten the belt even more on those struggling financially as personal vehicles are a liability and a financial burden to maintain. Pittsburgh celebrates its many diverse neighborhoods that each have their own unique culture. By reducing public transit, many of our neighbors that cannot afford or are not able to drive a personal vehicle will be forced to consolidate closer to their workplace, weakening the strength of our existing communities and neighborhoods.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I've been able to rely on PRT services between downtown and Shadyside ever since I moved here for late night transit without having to pay for Uber or Lyft, which I can't afford. I can afford using my Pitt staff ID, and will be able to use my student ID when I return to school. Without these late night services I will have to rely on ride-sharing apps to get me home after a night out. This also feels unfair to people who work after 11PM, many people work evenings and take the bus home after work, and 11PM service shutoff will strand a lot of people without service.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I'm covered through my employer, but low income Pittsburghers use the bus on their own dime often. They deserve to have an affordable price for public transit.

I rely on the 39 bus to get from Brookline to Station Square when the weather and roads are bad (snow, sleet, etc.). Without the bus, I don't feel comfortable driving on roads in my neighborhood that may not be treated.
Other comments (bus and rail service reductions):
When I was between cars last year, I took the 39 bus from my home in Brookline to work in Station Square for about 6 months. Thanks to public transportation, I was able to save up money and wait to buy a car that was in my budget. If, for whatever reason, I'm not able to drive to work (weather, car trouble, etc.), I rely on the bus to get me there.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I purchased a home in summit station in 2N/A22. A big selling point for me was that I was right next to the silver line in South Park/Bethel Park. This was so convenient to take the T into the city for sporting events, dinner plans, etc. I also am afraid that without this service the value of my home could diminish greatly.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 21 CORAOPOLIS (Major Reduction), G3 MOON FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Making downtown workers have a harder time getting to work in Pittsburgh only makes people not want to work in Pittsburgh.
Increased traffic, increased parking problems, and more would result in cutting flyer bus routes for downtown workers.
People need INCENTIVE to work downtown if Pittsburgh wants to get better.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Reducing service by STOPPING SERVICE AFTER 11pm NEGATIVELY impacts service industry workers. Medical centers, food and entertainment venues, night cleaners in offices and more NEED late night PRT Service. Please reconsider how these workers can be served. They need public transit with no exaggeration that their employment and income depends on PRT Service late night and WeekEnds.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Many low-income individuals use public transit. They do not have the flexibility in their budgets to pay this increase
Other comments (bus and rail service reductions):
I moved to the City to have access to public transportation. Your proposal removes that from me altogether. In addition, I tutor adults who are learning English and rely exclusively on public transportation to get them to our tutoring sites. The reduction and/or removal of buses and access routes will have a ripple effect on the services this group of people needs, many of whom are low-income and have no car or money for Ubers. I also work with K-12 students who need the bus to get to work and school. How are they supposed to do either without transit? I travel fairly often and almost always rely on public transportation when I travel. How can Pittsburgh be a tourist destination when we have such limited transit?
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Compared to other cities, this increase is way too high
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
As a Literacy Pittsburgh tutor, I've often had adult students who need the services of ACCESS. By removing/reducing this service, you throttle their ability to learn, receive medical care, get groceries and prescriptions, etc.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
To be frank, I am kind of a Yuppy (Young Upwardly Mobile Professional) with a good income who moved here for career opportunities. I am the kind of person Pittsburgh has worked hard to attract to the city and my husband followed me here. My concerns are as follows:
1. We have a one-car household because our neighborhood wasn't built for so many cars and can't fit a second for my husband
2. We can't afford a second car yet anyway
3. As a result, we split car access between us. I frequently ride the 43 (or the 44 in a pinch) to and from work and downtown activities. I enjoy these rides very much - the staff is professional and friendly, and I like being surrounded by my neighbors.
4. I literally met my best friend in Pittsburgh at the bus stop in a snow storm. We live two blocks from each other and she's become an important part of feeling at home in my new city.
5. My neighborhood is income diverse and I like that. While I have 5N/A% access to a car, many of my neighbors have little or no access. One of my neighbors uses disabled transport for his child. I care about these folks and how this will impact their lives. I don't want people to lose jobs or move out because they lose public transportation access.
6. I don't want the composition of my neighborhood to change, I want to integrate myself into it. This isn't just bad for me, it's bad for my neighbors, and bad for the fabric of our communities.
7. Shame on whatever stingy state politicians are responsible for these cuts.

Other comments (bus and rail service reductions):
Eliminating the Silver line would not affect my job but I know if would for many others in my community. My family does use the Silver line to go into the city for events in order to reduce the hassle of driving in and parking. The time change would greatly impact us being about to take the T in for events that are in the evening. If these events were to run past 11pm then we would be stranded in the city.

My fiancé and I are considering moving to Pittsburgh soon. I am a 27 year old mechanical engineer with three patents and my fiancé (24) is a graphic designer; I think we have a lot to provide to the city in terms of positive economic activity. I believe that Pittsburgh's downward slope it has been in post-WWII has finally leveled off, and it appears to be starting on an upswing. But after hearing the news of these cuts, in addition to issues with real estate downtown, I'm having second thoughts. I know I'm not alone.

Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I know many people who use the bus both around my area (Mt Royal 2) and the Silver Line who would not be able to get to their jobs, would have trouble making busy schedules work, and lose out on livelihood if these services are cut. There has to be something that can be done to save the routes from service cuts.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 4 TROY HILL (Elim.), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The route 4 bus is the only public transit route that comes into my neighborhoodBecause of the steep hills and the placement of the highway, Troy Hill is extremely isolated and difficult to access by other means of transport (walking, biking, etc). My mother-in-law does not have a car and regularly takes the bus up and down the hill to visit us and to help provide childcare for my daughter. She is unable to physically walk up the hill or the stairs. There are many low-income people in my neighborhood who also don't have cars and other forms of transit. When my daughter starts middle school, she won't have safe access to public bus service to reach her school.
I work in Oakland and it's already very difficult to access bus service to get to and from my job. I have the choice of taking the route 4 down the hill to get a connection downtown or walking 2N/A minutes to the Route 54, which is the only other alternative -- and very slow. The infrequently of the Route 4 bus already makes it difficult to count on connections without very long wait times. And reductions in the Route 54 service would only worsen the situation.
If cuts are necessary, then perhaps combining the spring garden route (7) with the Troy Hill route (4) and looping down along the base of spring garden at the back an up Wicklines and then down Troy Hill Road would at least leave these two neighborhoods with some basic access to service?
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If fare increases are necessary to make up for the budget shortfall, that seems reasonable/understandable. Cutting off entire city neighborhoods from public transit does not.

Other comments (bus and rail service reductions):
As President of the Sewickley Valley Chamber of Commerce, I am writing to express our deep concern about the proposed cuts to public transportation in our region.
Our local economy depends on a workforce that can reliably get to and from their jobs. Many employees across the Sewickley Valley area rely on public transit as their primary mode of transportation. Reducing or eliminating these services could have a serious ripple effect—impacting not just individuals, but the businesses that depend on their skills and commitment.
Small businesses in particular are already facing hiring challenges. Cutting access to transportation only makes it harder for people to work, and for businesses to grow. These proposed changes would disproportionately affect lower-income workers and could widen existing gaps in opportunity.
We urge you to reconsider the proposed cuts and to advocate for sustainable solutions that protect access to transit for all. Reliable transportation isn't just a convenience—it's a critical piece of economic stability and community well-being.
Thank you for your service, and for considering the needs of businesses and workers across our region.
Sincerely,
Mark Rengers
President, Sewickley Valley Chamber of Commerce

Other comments (bus and rail service reductions):
Eliminating the silver line service to library would be detrimental to our community. So many people count on that to get downtown for work. We take it for events all the time. Our property values would go down. The library T service was a huge selling point when we built our home.

Other comments (bus and rail service reductions):
I am a current resident of Bellevue, and while there is a local route that passes through my community, I currently use the Ross Park and Ride (N/A1) bus service to get to my job downtown. You are proposing to completely eliminate my current route, despite the volume of people that currently use it, which often has very full busses during peak hours. I have stood for the duration of the ride on more than one occasion. The loss of this service would push riders to use the Perrysville (8) bus if the still wanted to utilize the parking, but you are also proposing significant reductions for that line. I could walk from my home to take the Bellevue (13) bus, but again, you are proposing significant reductions to that line. The parking garages near my building downtown frequently fill up and can cost upwards of $25 per day to use. These proposed cuts are coming at a time when people are already feeling negative financial impact from rising costs, and public transportation should be fully funded as a service and one vital to a healthy local infrastructure.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I fully recognize that there are budget concerns and that operating transportation services costs money. Fare increases would be a hardship for vulnerable populations, and a discount or credit program should be considered for elderly and vulnerable populations, but I would rather have a fare increase that keeps the proposed eliminated routes intact than lose the service altogether.

Other comments (bus and rail service reductions):
Eliminating the 2 and N/A13 routes would end all transit in Shaler, and eliminating the 1, 4, N/A5, 8, 13, and N/A12 would dismantle transit in the North Hills. I know people that frequently use the N/A13, 4, and 8 routes to conveniently get to downtown for work and back. Some municipalities such as Reserve have neighborhoods built around their main road. With transit running through that main road, in Reserve's case 4 through Mt. Troy, all people have to do to get out of their neighborhood is walk a few minutes to a bus stop. Without that transit, people in that neighborhood are instead trapped by main road as it's unsafe for foot traffic, making the safest way out ironically by car, one of the most dangerous modes of transport. It's a similar situation in my neighborhood, Bellevue and neighborhoods adjacent to Freeport road, and all these neighborhoods have people I know that can't drive. Transit will no longer be a feasible option for these people with the proposed service changes; PRT will lose out on their future fares as they instead pay more for rideshares or have to depend more on friends and family for rides.
When I was a child, buses ran right by my neighborhood on the Anderson line. If that continued to be the case, buses likely would've become my most frequent mode of transport. Instead, outside of rush hour my neighborhood is already a transit desert, with no routes accessible within a safe 15 minute walk. Even so, I still used the closest route to my neighborhood, the N/A5, on a daily basis at some points in my life. I've used the N/A12, 12, 2 and N/A13 dozens of times as well, the former two within the last year. Before this funding crisis, PRT was contemplating changing routes to connect more suburbs to each other. If a McCandless route connected directly to Oakland in the evening, I would use that service very frequently. If instead, routes are butchered as proposed, I may never ride PRT outside Pittsburgh again. The 12 already only comes about once an hour outside rush hour, and is a 45 minute walk from my house. If that's the only route left in my area, and its service gets further reduced, I'd likely never take it again.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Although I do not personally use bus service in Sewickley, I know the loss of this service would be disastrous for small businesses on Beaver Street and for the Sewickley Valley YMCA as well as for doctors' offices in Sewickley. Many of our restaurants would close as they already face a dire shortage of workers.

Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
It will affect how I can provide for my school age children who are also disabled.
Other comments (ACCESS service reductions):
Taking away access for people who live in the suburbs who are not in walking distance to a stop will cause huge problems in how to manage a household and ends our freedom to live. Also making everything more expensive on top of the stress of arranging rides just makes matters so much worse.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS fare increases):
I'm already taking less trips because they're hard to coordinate with public transportation. Cuts would make it far worse. I already try to wait on rides from family and friends.

I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
To do this to an already subpar service will just hinder the persons with disabilities and senior citizens who rely on ACCESS. While I am fortunate to have other forms of transportation, I also know that entitlement reform should be done in a thoughtful manner. It seems to me that these service reductions were not done in an appropriate way, and I am unsure as to whether decision-makers thoroughly considered other options.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
The fare increases will keep a vital service ongoing during uncertain times. While certain low-income ACCESS riders might struggle, keeping the service solvent for them and others is vital.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Please keep the airport flyer travel times. It's hard for folks who don't have other modes of transportation. The airport is also the gateway to the city and it would be a good welcoming extension for Pittsburgh. Thinking on the upcoming NFL draft and other large events the city wants to host, a good welcoming transport would be great (themed bus) and beneficial for traffic.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The minimum wage has not changed for the state in decades, and folks who most rely on public transportation are often in that earning group. This fare hike will be on par with cities like Seattle where minimum wage is $20.76 vs Pittsburgh's $7.25. This is not going to be the most livable city.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm fine with a cost increase. As an epileptic, I cannot drive, and the 31 is my lifeline to city activities, shopping, the train station, and the first step to the airport. $3 per ride is still far better than $4N/A for an uber.

OPPOSE the proposed service changes
Service change impacts (ACCESS)
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
I am a quadriplegic. I rely on ACCEss services to get me to medical appointments, physical therapy appointments, the gym to work out, social events in which I can join my wife and daughter as we live separately as I am in personal care/nursing care. Cutting access transportation will severely impact my quality of life. I believe it will also impact my length of life due to missed healthcare maintenance activities. The only transportation would be ambulatory in case I have a life-threatening event.

The loss of the services is untenable for a vibrant disabled community.

Insurance does not cover transportation to health maintenance activities.

I would hope that you would revisit the funding model and consider increasing fares instead of elimination of service.
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
It does not make sense to me to completely eliminate and/orcut 60% of NAMS or Access operations considering all the investment they have made to create a top rated organization to support the disabled community. Please review operational cost versus income to see where increase in fares makes sense.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The service cuts will greatly affect people around me who relies on the bus (and the T) to be able to get to work, buy groceries etc. It is already getting unsustainable with the increasing prices for necessities, and cutting the lifelines for people who really need the bus to get to places is cruel and unacceptable. Also the increased wait time in addition to service being already unreliable will add a great inconvenience to me and other travelers.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Increase my expenses in general
Other comments (bus and rail fare increases):
The fare increase will cause some of the people I know not being able to afford the increased fares (or will have to switch to car travel, which is not a good option for them). Also it does add to a significant increase in expenses (>$100 a year, which everything adds up).

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Ultimately, these changes would make transportation around the city difficult and impact all populations. With the NFL Draft coming to Pittsburgh in 2N/A26, it is bad timing to announce these cuts. The current PRT system is can be inadequate and insufficient for many in the county and reducing it further would be devastating for residents. I sincerely request that you reconsider these drastic changes for the good of the residents in Allegheny County. You are going to significantly impact the those that need the system the most. Please consider other avenues or alternatives before making these changes.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I understand the need to make pricing changes to pay for essential services. If this must happen, I would be more in favor of these increases over the route reductions. Please consider those that are struggling with other cost pressures that would force them to make choices that may not be the most favorable. When you this, those that make the least are impacted the most.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
Other comments (bus and rail service reductions):
I think that it's extremely heartless that these bus cuts are even being considered!!!!!!! Every Y1, Y47, bus that I take currently are packed from 3:N/AN/A on... So how the hell do you think that people are going to get home from there current jobs? I'll tell you what's going to happen....that everyone that takes the Y47, and Y1, will be FORCED to get on the Y46 Elizabeth bus, which will make that bus EXTREMELY PACKED to the brim with people!!!! It's going to be so ridiculously crowded that I feel that the drive will have to turn people away, due to not being able to fit anymore people on the bus... Why can't PRT think about this kinda of stuff, before making dumb changes that will definitely impact the public!!!!!! They obviously don't care, and it's so rude! all of the y buses are very crowded and popular! Maybe they need to reconsider and actually give a shit about the public, and how it affects people. I just think the whole thing is ridiculous an in humane.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
Other comments (bus and rail fare increases):
I just think that the fare increases are crap also... People already shell out a lot for weekly or monthly passes. PRT used to get government and funded money.... So where did all that money go? Don't punish the public just cause there money has been mismanaged!!!!

N/A
Other comments (bus and rail fare increases):
N/A
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Would make me less independent
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would take less ACCESS trips
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS fare increases):
N/A
First Name: Krista **Last Name:** Lamison **Email Address:** kristamlamison@outlook.com
How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
Medical care/appointments
Social activities
Religious activities

Which of the following best describes your 2024 household income?
Less than $10,000
Including yourself, how many people live in your household? More than 6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Elimination of routes isn't as much a cost saving as perceived because commuters likely adapt and take the closest alternative, which will in turn cause overcrowding and require additional buses or trains along those alternate routes, which will require the same cost of operation as a bus or train on an eliminated route.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I believe close to 90% of commuters would rather pay an increased fare than have their route eliminated, especially the Silver Line train. I personally would pay a higher fare increase if it ensures the line isn't eliminated.

OPPOSE: 12 MCKNIGHT (Major Reduction), 14 OHIO VALLEY (Elim.), 19L EMSWORTH LIMITED (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I ride the 14 Ohio Valley bus that goes all way from Ambridge to the city. I live in Emsworth and work in Sewickley. I and fellow bus riders all ride the bus for different reasons I'm sure but to cut this route will hurt a lot of people. This is my transportation to work. I know some people don't drive and others don't want to pay for gas or parking if they work in the city. Of all the routes to cut this one would be one of the worst to cut. Please reconsider. Think of the people that are being impacted.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 20 KENNEDY (Elim.), 22 MCCOY (Major Reduction), 29 ROBINSON (Elim.),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The reduction, and especially the elimination of these bus routes would significantly impact the students that my organization works with. In some cases, it could affect them to the point that it could negatively alter their future goals. These busing lines must remain intact.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Myself, and many of those in my social circle chose to live in the city due to a desire to be less car dependent. We have improved the neighborhoods we live in, supported local businesses, and tolerated less than desirable elements of urban living all because we value multi-modal access to work, medical, and social destinations. There is already a huge problem with irresponsible car ownership in the form of speeding, distracted driving, reckless driving, and impaired driving, on top of an overabundance of cars in dense neighborhoods with limited parking. Taking away the ability to move around the city without a car will further these issues exponentially.
This is especially frustrating in neighborhoods like Beechview, where infrastructure like the Liberty Tunnels essentially requires that you drive a car or wait for a soon to be unreliable and underserved T/bus route to come. If we are going to essentially lose access bus service, the busway/HOV lane ought to be opened to bike and pedestrian use. We feel trapped behind infrastructure that used to be built for us, but is now threatening to become a barrier. I do not want to leave the city, but if I have to drive everywhere anyway, I might as well live somewhere with a functional police force and some space to breathe.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I use the bus to get to work as well as go shopping and to church services, and drop my 5 year old son off at school. My 12 year old daughter also uses the bus to get to her school. She already has to transfer and cuts to service would mean she would have a longer ride to/from school and be exposed to the elements for a longer time while waiting for buses.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Bus fares in Pittsburgh are already too high. I might be able to pay the difference but it will cause hardship for many families that are struggling.

Other comments (bus and rail service reductions):
It is so critical to have a public transportation network that can get you to work, school, stores, organizations. It's the very fabric of our community. If these cuts happen, those without a car will become entirely isolated and desperate, which hurts them and everyone else.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm someone without a car who relies on walking and the bus to get wherever I need to go. These changes would severely impact when and how I travel, and I'm blessed to live in a part of town with popular bus routes. I can't imagine what it must be like for others in our city, facing the elimination of routes they depend upon.
Hobbling the 28X is also really bad, considering we don't have any alternative public transport to the airport. I live by myself; there's no one around to give me a ride if I should need one. Without the 28X, I'd be facing $1N/AN/A one-way Uber rides to get to the airport and back. And what happens if my flight is delayed, and I land after midnight (which has happened to me before)? There's nowhere to sleep at the airport, except for the hotel!
Public transit is essential infrastructure, a lifeline, and a serious public good. Don't cut it, expand it!

OPPOSE: O12 MCKNIGHT FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A12 McKnight Flyer is a great resource for commuters from the North Hills areas/communities into downtown. My employer, and many other in the downtown areas, are requiring employees to be in the office 3-5 days a week. Downtown parking is a challenge, as well as traffic. The McKnight Flyer is a wonderful way to get downtown while also reducing environmental footprint. Please do not eliminate this route. Consider reducing the times and potentially reducing the number of stops on McKnight road but please do not get rid of the options of the Park and Ride to downtown.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
N/A

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
It is difficult to fathom how again those who are in most need of access to transportation services to maintain their livelihoods are again the ones that are being asked to sacrifice. There has to be a better solution. The proposed service changes will alter the daily life for many commuters. If you have never relied on public transportation to maintain your job or attend a school, then you likely cannot comprehend what these changes will mean. It is a necessity and should be regarded as such. All of us as a community need to understand that so many rely on these services. It makes our city strong and we need to provide the best system possible at what is now in these difficult financial times a fare price. Dig deep and search far and wide for solutions before again asking those who struggle or support public transportation daily to bare the burden.

Other comments (bus and rail service reductions):
We are struggling SO much already with the disruptions to everyday life brought on by the new regime. Please don't make transit more impossible. Please ADD services to connect and boost service!!! Transit is always preferred. Sadly it is harder and harder to use when you have any sort of schedule. Please keep routes and fares affordable and accessible, if anything we need more routes.
Please indicate if you oppose or support the proposed fare increases:

Other comments (bus and rail service reductions):
One of the reasons we have chosen to stay in Pittsburgh is because of the ability to get around by bus and to not need a car. A number of the lines we use regularly like the 65 and 64 are getting cut or majorly reduced. Cutting funding for the bus will impact our ability to get around the city and negatively impact how we view the city of Pittsburgh. Cutting the bus routes is extremely disappointing and will have a massive effect on the population of Pittsburgh who need it for getting to jobs, schools, or social events. The more people who take the bus instead of driving their own car, the safer the streets are for everyone. It reduces the number of drunk drivers, aggressive drivers, and distracted drivers. I want to live in a city that promotes public transport, not reduces it.

Service change impacts (bus and rail):
I occasionally take the bus but since it's sometimes late or my route requires changing busses which increase the commute time, I find it hard to use it for appointments where you have to be on time. If busses ran more frequently, I would take the bus more often.
Other comments (bus and rail service reductions):
1. Driving downtown from Morningside for events, shopping, and dining out is horrible. I hate it and I'd much rather take the bus. We need busses that run frequently and into the late evening so that it's an actual options to take public transit and not just a theoretical one. Increase the options, don't cut them!
2. Lots of people would need to drive and more cars on the already congested road will mean more traffic jams, more pollution, and more accidents - and that's not acceptable.
3. Cutting public transit will make people who have no access to a car or are not able to drive (yet, ever, anymore) more isolated and that leads to anxiety and depression.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
Other comments (bus and rail service reductions):
Hi,
The community would have no public transportation if the number 4N/A bus was closed. The bus is almost always full and it covers a large high density cross section of the city. In addition to the size the area is not the easiest to walk. It has many steep hills and a lot of traffic. The walk to other bus stops further away would not be an easy one. It would actually be dangerous in the the winter. By closing this route, you will essentially cut the lower part of Mt. Washington off from the rest of the city. Rate hikes are never good for people who are just getting by, but if this is the ONLY way to save service to this community, I think a rate hike is better than no service or hard to access service. Possibly funds could be put aside for people whose incomes are at a lower threshold. We need to help working people get to their jobs. No one should lose a job because their bus service was cancelled or they can't afford transportation. Thank-you for asking for community feedback.
Regards,
Denise Hartman

Other comments (bus and rail service reductions):
support making 28X something resembling a "FLYER" by eliminating the time-consuming lazy loop through Robinson Town Centre. Horrible use of technology so that you don't have any accuracy as to location of busses or train. Horrid navigation on your website for route info. When you have detours of routes especially through downtown, no real time info to know where current stops are. Even if you text a stop number using your service, you don't even get a reply noting that a stop is temporarily closed and where new location is.

Other comments (bus and rail service reductions):
Eliminating these lines would greatly hurt our student population who are housed downtown on Penn Avenue. With city parking prices being so high most students cannot afford to park there so rely on the bus to get to school. We also have some employees that will be affected. Please don't eliminate!

My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Significant increase in environmental impact due to having more people driving into Pittsburgh for work. At least keep the Silver line for key commuter times to significantly reduce the driving to Pittsburgh. Even if we need to transfer at Washington Junction which has significantly limited parking.
Other comments (bus and rail service reductions):
Please keep the Silver Line running for downtown work commutes. This helps the environment and reduces Downtown congestion. I am not certain how South Hills will handle absorbing everyone.
Please indicate if you oppose or support the proposed fare increases:

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I understand that the budget being cut is not PRT's fault but they need to understand how drastically this will affect residents. Cutting so many lines will create chaos and alienate people. No bus service after 11pm is also insane and medical staff, night shift workers, restaurant workers and more will not be able to go home or get to work.
Please indicate if you oppose or support the proposed fare increases:

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Residents of Pittsburgh, including myself, rely on public transit for basic access and enjoyment of our city. Cuts to service will negatively impact everyone by putting more cars on the road and increasing the need for parking (existing issues which would be made worse), but will most affect those who don't or can't drive by cutting them off from jobs and necessary services, further increasing income and access disparities. Our transit system already underserves our community, making it difficult to use to get where we need to go, but these changes would make it largely obsolete. Functioning public transit is a priority for my family in choosing where we want to live. It was a factor in our decision to move from Michigan to Pittsburgh 8 years ago, and will likely be a factor in our choice of whether or not to remain in Pittsburgh or move to another city in the future. Please find a way to continue to service communities across Pittsburgh with reliable public transit. My dream is to see public transit that is frequent, reliable, and accessible to all in Pittsburgh's future.

Other comments (bus and rail service reductions):
I realize some bus runs might be reduced or may be needed, but to completely eliminate routes is absurd. I use the 38 bus almost every day and it has already become unreliable, now you want to eliminate it completely ? How will I get to work, or to my doctor appointments ? A great city needs great public transportation. Cutting transit makes Pittsburgh a worse place to live. The T is always out of service or re-directed, and busses often are late. Doers anyone in the administration of PRT actually ride a bus to work or to a UPMC appointment ? Ride a mile in our shoes!! NO ELIMINATION of BUS routes. Silver Line, well, ok, it is redundant. But bus lines are needed, especially for us who live just outside of the city. We use the T Red Line and the 38 the most of all. Your cuts will KILL transit in South Hills. PLEASE work out something. A blow to the Pittsburgh region, why would young people want to move here.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Eliminating any routes would have a major impact on the future lives of everyone living in Allegheny County and beyond who travel here from afar, utilized the services to keep congestion down within the county and especially in the city.
Other comments (bus and rail service reductions):
There are many other innovative ideas that have not been announced nor taken into consideration. Many who haven't been able to speak up because they are actually being hindered from doing so right now...
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Please offer options for people who are unable to afford the proposed increases. Over $1000 a year is a huge amount for transportation where the minimum wage remains $7.50 an hour. If the county wants this kind of hike for transportation and where housing remains so high, we need to have better wages.

Other comments (bus and rail service reductions):
I currently live in East Liberty, but am moving to Mt Lebanon next month. I do not drive and rely completely on public transportation. I have chosen every place I have ever lived in every city for its ease of transit. These extreme changes will have an extreme affect on my ability to get back and forth to work, or to doctor's appointments, social engagements, etc. in a city where it is already not easy to get around without a car (having to transfer to go one neighborhood over, buses never on time, missing transfers because buses are late, etc. etc.).
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Pittsburgh already has a high fare for the quality and availability of transit. To ask patrons to pay the same amount as big cities like New York and Philadelphia while offering way less reliable and frequent options is ridiculous.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am not a car owner, and for personal reasons will never be. As someone who relies on PRT for all transportation, there are several routes that are proposed to be cut that are the only transit option to reach certain neighborhoods and many current riders do not own cars like myself. Cutting service would also make it harder to find a schedule that works with my job/life and make commutes longer and more difficult to plan. Service after 11pm is crucial for workers that work late schedules, like myself. All of these changes would Discourage ridership, and once we loose riders there may never come back and only futher push PRT and transit to be obsolete.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Fares are already one of the highest in the country. I would have to sacrifice some trips to walk or bike, but not everyone has that option or ability. This will Discourage usage, when we could focus on increasing riders hip, which would reduce the need for fare increases. There needs to be another solution. Transit is a public service, an essential one.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The proposal appears shortsighted. The County struggles to accommodate unhoused individuals but quickly cuts key services that support employment/upward mobility, access to quality healthcare, and safety for working-class riders. Workers such as security personnel, medical staff, maintenance, and cleaners often work irregular and late-night shifts. Asking them to rely on costly Lyft or Uber rides after 11:N/AN/A PM presents another barrier to upward mobility in under-resourced communities. The proposed savings will need to be reallocated and supplemented to address other community crises that will result from this, such as surges in unemployment, homelessness and crime.
The removal of the P12 route is inconvenient, but my proximity to the Wilkinsburg P1 lot allows me to use PT to avoid city parking. Cutting commuter routes may push suburban workers toward remote work or opportunities outside downtown, especially as the cost of living is set to spike in coming months. We have bleak forecasts from the Feds and dwindling local resources. If these cuts happen, current efforts to reduce unemployment, crime, and homelessness will fail as citizens without a safety net act out of desperation.
This proposal is a band-aid for a bullet wound. A better strategy must exist.

Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
These significant eliminations of routes will cause people to either drive their own cars downtown to work which increases our costs, safety risk and negatively reduce our overall quality of life or seek employment outside of downtown which will cause the downtown area to go into further decline and reduce economic impacts of a metro workforce.

I would no longer be able to get to my current job, training location, or will have to find a new job
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I strongly oppose the proposed PRT service changes that would increase ticket costs while reducing essential bus and rail service. These changes disproportionately impact communities like mine, where many already struggle to access reliable transportation. For us, PRT is the only semi-accessible public transit option in Allegheny County, and limiting its reach or making it more expensive pushes it even further out of reach. Raising fares while cutting routes creates an impossible burden for those who depend on this system daily. If these changes go through, an already strained service will become completely inaccessible to a much larger and more vulnerable part of our community.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I am deeply concerned about the proposed PRT fare increases, which are pushing Pittsburgh's transit costs beyond those of much larger cities like New York City. It feels incredibly inequitable that a smaller city with fewer transit options and lower average incomes would charge more for basic access to transportation. Public transit should be affordable and accessible, not a financial barrier. For many in my community, even the current fare is a stretch—and raising it further threatens to cut us off entirely. These fare hikes don't reflect the realities of those who rely on PRT every day, and they only deepen existing disparities in mobility and opportunity.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
The proposed changes to the ACCESS service would have a devastating impact on my family and community. My aging mother relies on ACCESS as her primary means of transportation, and if this service is reduced or made more difficult to use, that responsibility will fall entirely on me. That means taking time off work to get her to medical appointments, grocery stores, and other essential places—time I simply can't afford to lose. Every missed day of work is a loss of income, which puts even more strain on our household. ACCESS is more than just a ride—it's a critical support system for families like mine, and cutting it back will force already struggling caregivers to shoulder even more, with fewer resources and less support.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
The proposed fee increase for the ACCESS service is especially troubling because it targets an already vulnerable and often overlooked community. Many ACCESS riders are elderly, disabled, or living on fixed incomes, and even the current fare can be a challenge. Raising the cost of this essential service only adds to the burden, making it harder for people to attend medical appointments, buy groceries, or simply stay connected to their communities. This isn't just a fee hike—it's a direct hit to the most marginalized residents of Allegheny County. Increasing the fare doesn't solve accessibility issues; it deepens them, and it sends a clear message that the needs of our most vulnerable neighbors are not being prioritized.

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
A major aspect of any modern city is easy, affordable, accessible public transit. I use public transit because it is easier, cheaper, and quicker to get to my work than driving myself. I see many different people on the bus. On my route, I see the same faces daily, in the morning and afternoon, and there is often a mostly full bus. The impact to each of us would be astronomical.
Eliminating bus routes also eliminates access to many public services that people need. If people can not access the services they need, they are more likely to end up in crisis. I fail to see how we are supporting anyone in our community by failing to support PRT.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Our state should fully fund PRT to maintain and enhance the current service. The more people who can access public transportation, the more people can find sustainable jobs, education, and public services. Increasing the fare puts the responsibility on the traveler, and it should be on our government systems. Those of us who ride the bus pay taxes and should benefit from public services that are provided as a result.
Affordable public transportation is also important for visitors to our city. A visitor should not feel it is too expensive to use public transportation to major attractions in the city. To support businesses, we should support people getting affordable, easy access to these popular locations.

Other comments (bus and rail service reductions):
Cutting the 28x line in half will make me give up on taking the bus to the airport. I will be forced to pay $1N/AN/A to take an Uber or cab to get to and from the airport. It will make it harder to have my friends and family visit me from out of state. Having the 28x, as it is, makes travel to and from Pittsburgh, convenient, affordable and manageable for people not familiar with the city.
Cuts to the other lines will force people to buy a car, which will bankrupt more people or it will force people to buy scooters and bikes, which will clog up the roads with people who would happily take the bus. More cars would also mean the road gets more torn up and more parking. In the long term, this will bankrupt the city even more with no way to pay it back without a bailout.
Instead of cutting service, we should think about how to make it into a more enticing product. More busways, so that buses don't get stuck in traffic, more consistency and restricting car access, would give people a reason to ride the bus more and allow the city to flourish.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
We specifically moved to our home just to have light rail access (I work Downtown). In the 1N/A years that I have lived there, I've seen service change and drop off in ways that have made my commute more difficult. It is such a vital lifeline to the communities that it serves, and something that a lot of my friends and colleagues wish they had where they lived. To me, that is a testament to how valuable the light rail services are and these cuts would result in a major drop in our quality of life.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Living in Bethel Park is great but it's far out from the city and all that Pittsburgh has to offer. It takes 3N/A+ minutes to get an Uber to pick me up at my house. Ubers are also anywhere from $3N/A-$1N/AN/A to go downtown. The silver line is amazing. It's so much faster, easier, and affordable. Without the sliver T, I will not have a fast, easy, and affordable way to get downtown and to the North Shore. When deciding where to buy a house I specifically purchased my home because it was within walking distance from the West Library stop. I'm completely fine with raising the fare price. Please don't cut the service. Everything is already expensive enough. Ubers will cost me so much more and they just take too long. Thank you.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Y'all need to raise the T fare way higher. $3.00 for a 3-hour pass. To go from Bethel Park to downtown: Ubers can cost anywhere from $40-$100. I'd be willing to pay $10 or even $20 to ride the Silver line. It's still WAY faster and cheaper than an Uber.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The people who most depend on the bus are the ones whose routes are often threatened with cuts, namely routes that serve far-reaching, low-income areas where people often work multiple jobs. Some of my coworkers also work at events catering and have variable shift times and locations that go quite late at night, usually past 11. Their employer employs hundreds in the Pittsburgh region. Tariffs will only cause cars and car prices to go up over time, making buying a private vehicle less accessible. Pittsburgh's economic growth and viability as a destination to move to and visit depends on efficient public transit.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Pittsburgh's fares are already significantly higher than those of larger cities. Many people will be forced to decide between transit and basic expenses such as groceries. The cost of living is rising, and transit serves the most vulnerable. Fundamentally, transit is an investment in the promise of society, not a for-profit business. Transit connects people to opportunity, which enriches society through a ripple effect. This requires recognition of the inherent value to the region of people accessing transit beyond simply income from fare. It is a gear in the larger system of the region's economy, not a stand-alone piece.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This proposed reduction will have a ripple effect on communities. Many people who use ACCESS depend on it to reach medical services and necessary goods, and many of these people can not afford to move to an area that may retain service in the event of a proposed change. To enact this proposed reduction would negatively impact people and communities who depend most on this service.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Cutting public transportation and bus routes as detailed in recent proposals and reports is short sighted and will cost more money in the log run.
As has been reported, cuts to lines and frequency of service will make it difficult for many citizens to get to their jobs and access services, including shopping and healthcare, as well as curtail student use, not just at the University level, but high school and middle school students too. Besides leaving these tax-paying, revenue contributing inhabitants with no reliable transportation, fewer lines and infrequent trips will induce more people (those who can) to drive their cars to areas of the city that are already congested and in need of capital improvements and repairs. It will cost more money in the long run to address the consequences of these changes than it would to just fund the necessary transportation needs and demand of the community TODAY.
Plus, it's just a terrible way to treat people -- a deliberate complication imposed on their life through no fault of their own. How very elitist.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
Other comments (bus and rail fare increases):
Even though I may be able to afford the increased fare, others in the community may not, particularly at a time when costs for all goods and services are rising exponentially and are forecast to continue to do so.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes cannot be allowed to happen as proposed. Public transit is an essential part of our community and any reduction to its service will be felt most strongly by the people who have the fewest alternatives. Cities and states nationwide have begun to realize in recent years that what we actually need is more transit and more transit oriented development, because our cities in their current form are not sustainable. We literally cannot afford to be the exception to this trend by cutting services. Increased access to transit is one of the most important issues the city faces and if we begin down the path of reducing service we will only hurt ourselves more. Reducing service will require people to find alternative means to travel because public transit will be unreliable. This will lead to further declines in ridership, which will reduce funding, which will reduce ridership... so on and so forth. We can't allow ourselves to get stuck in this positive feedback loop, now is when we must show our commitment to public transit to encourage more ridership.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Not only would this affect the daily life of every Pittsburgher in the region, but this would also significantly affect other businesses and activities in the region. For example, the NFL Draft will be here next year. Should funding for PRT be cut, hundreds of thousands of people, most from out of town, will have to rely on rideshare services like Uber and Lyft. Pittsburgh will lose money to these corporations that could have been spent on public transportation. Pittsburgh will likely also find itself in a situation where there is not enough parking for the cars that will have to drive into the city because there are no other options for people who live in the suburbs to get into the city. Think of the money we will be losing out on during this event alone. Then think about all the other large scale events we have across the city throughout the year that will be in the same position.
As gas and groceries get more expensive and the job market gets tougher, we are already pinching pennies and taking any jobs we can. A lack of transit options would force a lot of us to purchase cars or use rideshare services leaving us with less and less money each month. This will severely impact local businesses who are already struggling due to Republican tax policies and tariffs. Pittsburghers will have less money to spend at local businesses and restaurants leading to their eventual closure. This leads to less tax revenue for the city and state leading to further budget cuts elsewhere, gradually hacking away at the quality of life in Allegheny County.
The less options PRT has, the less people will use it, then we'll inevitably lose even more funding because PRT will have been shaved down so much it will be useless to anyone who does not work 9 to 5 and lives in the east end.
More money will have to be spent on roads and infrastructure to handle the influx of cars that will inevitably happen when citizens run out of transit options. We'll have to pave over green spaces to build parking garages and lots to accommodate all the cars. That combination will increase pollution and have detrimental effects on climate change in the long run. The amount of people moving to Pittsburgh for jobs or to start families will significantly decrease because while yes, Pittsburgh is a very affordable city, there is a big difference between being affordable and being livable.
And if these facts don't sway the PA legislature to fund our public transportation system sufficiently, let me tug at their heart strings. I grew up south of the city and had an uncle that lived in the north hills for most of my childhood. I have such vivid memories of being excited to drive up to the South Hills Mall to park and take the T into town to meet my uncle for baseball games at Three Rivers Stadium. I would truly hate to deprive any child or parent of those experiences and memories. Something so simple made such a huge impact on me and eventually led me to moving here as an adult. If I've learned nothing else from living in this area, leaving it for 5 years, and returning, it's that Pittsburghers are extremely sentimental people, sure, sometimes to a fault, but I'm going to have to side with the born and bred yinzers on this one.
This explanation doesn't even cover the amount of people using ACCESS that will suffer greatly when services are cut. A cut in PRT funding just tells the elderly and the disabled that the PA legislature does not care about them or their contributions to society. The proposed cuts are elitist, ageist, ableist, racist, and frankly, stupid.
Do we want Pittsburgh to become a city of arts and innovation like Austin or Atlanta or Boston? We have all the ingredients needed to do that. Cutting funding for public transportation will undercut everything Pittsburghers have been building for the last three decades.
We cannot let the Pennsylvania legislature cut our funding. It will be a death sentence for the Greater Pittsburgh Region.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Paying more than $2.50 to take a bus anywhere is outrageous in a town like this. New York City citizens pay $2.90 to use their extremely robust subway and bus system. There are over 8 million people living in New York City. Pittsburgh and PRT are trying their best in a city of about 300,000 people. In what universe does it make sense to raise our fares higher than New York City's?

Let's think smaller. How about Chicago. Over 2 million people live there. It costs $2.50 to take the train, $2.25 to take the bus.

Let's think closer and even smaller. Philly has one and a half million people living there. It costs $2.50 to ride SEPTA busses and metros.

Again I ask, in what universe does it make sense to raise PRT rates higher than any of these cities? Is it because not enough people use these services? Then why are they trying to make it harder to use said services. If you want people to use them, make them useable. Philadelphia is not the only city in this state.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):

This proposition is ableist and ageist. Cutting ACCESS would ruin so many people's lives.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Again, this proposition is ableist and ageist. Increasing fares for ACCESS could ruin so many people's lives. People on disability and social security only have so many dollars every month. This is stupid.

Oppose or support specific reductions.
OPPOSE: 74 HOMEWOOD-SQUIRREL HILL (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Major reductions to this route affect South Squirrel Hill residents. Combined with the elimination of the 65 bus, the only services left to our neighborhood will be those on Murray Avenue. Streets in S. Sq. Hill leading to Murray are steep and difficult to traverse in winter since the city fails to enforce sidewalk clearing, a reality that should factor into decision making. As an alternative, should reduction/loss of routes 65 and 74 prove necessary, I propose rerouting existing 64 service so that S. Sq. Hill as an option to the Murray Avenue routes. The 64 could be routed southbound to remain on Shady rather than taking Forbes to Murray. Then continue onto Tilbury and Beechwood Blvd, regaining its current route at the top of Browns Hill. This would provide S. Sq. Hill residents with the ability to access the mainline routes to downtown/Oakland w/out the need to get to Murray Avenue.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I would be interested to learn how these changes will align with the ongoing BRT upgrades to PRT services. The 74 routing mentioned is a feeder route that does not service Oakland/downtown but seems like a key piece to get riders to the mainline BRT routes. Why doesn't PRT consider smaller shuttle buses to service neighborhood routes rather than the nearly empty articulating buses currently in service?

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
Less than once a month
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Work or job training
How do you identify yourself? Select all that apply.
White
What is your age?
55-64
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$125,000 to $149,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My husband and I bought our home with an eye on local bus routes. Today, two express routes (P1N/A and P17) bring me downtown and home for work in just over 2N/A minutes a trip. The proposed service changes would eliminate both routes, pushing me onto local routes which would add nearly an hour to my daily commute time in light traffic. With more people driving as they lose their bus routes, that travel time will only go up.
Downtown Pittsburgh was not built for car commuters. The streets are narrow and parking is limited. We Pittsburghers have responded by riding on our excellent buses and light rail, driving down traffic, pollution, noise, and wasted space. These buses are packed with commuters every day. Cutting these routes will force more of us to drive cars, overloading our streets and eating up our money. It will push more of us to work from home, cutting our downtown spending even further.
Moreover, many of the route cuts eliminate service after 11 pm. While ridership may be lower on those late buses, they are critical for getting people home safe. Knowing I can catch a bus home gives me confidence when planning a night out. It also helps keep drunk drivers off the road.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
With the elimination of the bus to brookline and any surrounding bus lines within walking distance this leaves me to getting to downtown either by driving, paying for parking and then having to walk to my office, or walking 3N/A minutes to take the T. This greatly increases my commute time to my office downtown and increases how much I need to pay to get into work.

Other comments (bus and rail service reductions):
My elderly mother lives in Brookline and works in Oakland. Already she needs to plan her day perfectly to not get stranded downtown or have to walk long distances home from Dormont. With the proposed changes it will be far harder for her. She struggles driving at night so driving herself is not an option. Her's is just one story. These are literally life changing cuts for folks. There will be more cars on our streets, fewer people able to make a life in the Pittsburgh area, and huge economic impact for the region and state. The PA legislature needs to act now otherwise our state will continue struggling to keep up with our neighbors.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It is already more expensive to ride the bus than to drive in our city in most cases. These changes take that even further. Fare increase will only reduce ridership causing more funding problems. Fares should be lowered not increased. For our region and state to keep up we must have affordable and accessible mass transit. Or state's economy will continue suffering if we do not invest in this critical infrastructure.

Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These proposed service changes will greatly impact how myself and others will travel across the city. As an employee at Pitt University, car parking in the Oakland area is extremely limited. There are not enough car lots and/or street parking to accommodate for the amount of employees working there. The wait list for a parking pass is years long. Due to these limitations, myself and many others travel via the PRT bus service to get to work and school. If the proposed bus line cuts go into effect, it will have direct consequences for people that live further away and would no longer have reliable access to get to work.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
Other comments (bus and rail service reductions):
To continue to cut services is ridiculous, I work a 3-11 shift, cutting services at 11 is not what the area needs. I'm ready to leave Pittsburgh all together and this may be the nail in the coffin. Maybe you all should spend time in other cities learning from their public transportation instead of staying in a silo and failing the community.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
There are new buses purchased every year. Why are we paying more and the services may get cut back?

Oppose or support specific reductions.
SUPPORT: SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
If you are cutting silver line, what is being done with track? I believe that inefficiency in PRT upper management and the overall care for rail have hurt rail as much as covid. The bus service cuts will hurt an already marginalized community. The R's in the PA legislature simply must be educated. Work harder at really educating the public. I've lived in pgh my whole life and have ridden transit. I have always felt a distain from Port Authority. The agency has never been well run and years of managerial negligence and Republicans who hate transit have caught up with you. Continuing to treat public with distance won't help. Transit funding is complicated but honest dialogue could help.
Please indicate if you oppose or support the proposed fare increases:

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The no service after 11pm seems particularly concerning. When it's the late, cars tend to view stop signs/traffic lights as optional. Forcing more (potentially drunk) people to use the roads at that time seems very dangerous, since more people will be out recklessly driving and more people will have to walk/bike home because they can't use the bus.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I am fortunate enough to not be sensitive to ticket pricing. But I know many people who rely on the bus to get to and from work and the existing price scheme already seems high. An additional $0.25 per ride might not seem like much, but it adds up, especially when people are already struggling to rent (which is also consistently getting much more expensive).

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm lucky and the bus route I use to get to work is just barely outside the parameters of the proposed changes, but I work with county DHS to provide services and assistance to older adults who will be incredibly negatively impacted by proposed routes. Route service ending at 11pm will impact me and others as I've lucked out and caught some buses at that hour or had to catch a connection at that hour, if I'd been stranded because of service cuts I'd need to wait hours in unfamiliar streets for the buses to begin again or take the financial burden of maintaining a bus pass anyway and then using a rideshare app. In past years when working night life I've had patrons stay past closing times to wait out the interlude time for our current service time cutoff. It's hard to collect data on how many people end up stranded nightly but I do know that this would increase that amount undoubtedly.
I primarily take the 61 C & D, 54, 93, 81, & 82 bus routes.

I would have to switch to another mode of travel or rely on a family member or friend
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
N/A
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
This impact on the Older Adult population of the county would be wholeheartedly negative, seniors depend on ACCESS to reach live saving and altering medical visits, and shopping for base resources integral to thriving beyond base survival. There's only one county in our nation that would be impacted more than Allegheny County by these types of cuts due to the proportion of Older Adults within their population. It's unfeasible for this community to simply relocate to somewhere else when the next big population center would be clear on the other side of our wide commonwealth.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
We specifically bought a house on a bus line. This proposal would eliminate our line and the primary way we get to work. One of the attractions of living in Pittsburgh is the PRT system. If these changes are implemented we will move away from Pittsburgh within 5 years and never come back for any reason. It will no longer be America's "most livable" city.

Service change impacts (bus and rail):
My travel time would greatly increase
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
These changes impact our entire community, not only those who depend on public transportation to get to work, medical appointments, stores, etc. Cutting bus routes will increase traffic flows, will increase congestion, pollution, demands for parking, etc., etc. With the rising cost of living, low income families will be affected more severely, affecting people's ability to purchase food and afford rent. It will result in people losing a way to access essential services. Pittsburgh needs to improve access to public transport, not remove it.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Cutting lines is not a viable option for our city, even with a funding crisis. People should not have to center their lives around car culture. This will force people to restructure not only their free time, but their day-to-day routines. The work force that commutes on weekends and late at night now face the possibility of not being able to make it to their jobs (food service, nightlife, healthcare, etc.) Redlined communities already have limited service in Pittsburgh and are now facing a reality with no public transportation. Meanwhile, bus lines that cut through the universities are unchanged, relatively unaffected at best. This is how you target the lower class citizens that are often the ones who have called Pittsburgh home for decades. Not to mention that this is a terrible idea for the long-term health of our greater area. Allegheny county already has high rates of asthma and it often ranks in lists of metropolitan areas with the worst air quality in the nation. Removing access to public transportation will turn commuters to travel by car, which in turn increases emissions. We need to prioritize getting federal funding. There is not a lack of wealth in our country. We cannot allow car and oil lobbies to affect everyday lives because they do not want tax paying money to go back to the public. A public service is not meant to have profit incentive, it is to benefit and serve its community.

Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Commute times in the morning are already challenging. Further cuts would make it nearly impossible to come downtown in a timely fashion.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), P78 OAKMONT FLYER (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The P78 Oakmont Flyer is currently the only bus serving the entire towns of Oakmont and Verona, as well as half of Penn Hills. As it is now, that bus has no weekend or later evening service, which already poses a significant hardship for people seeking and maintaining employment (since the M-F, 9-5 workday is really not the norm these days.) The only alternative, using that term very loosely, is to walk through Verona, through Oakmont, and across the Hulton Bridge to the 1-Freeport which is slated for elimination. The combined effect of these cuts would cripple these communities, economically.
I would propose you levy more of these cuts on *overserved* neighborhoods such as Oakland and the rest of the East End, particularly since these areas are largely higher income and so more likely to have access to vehicles, as well as being walkable to many amenities. Base your cuts on who actually relies on buses, not on avoiding the squeaky wheel wealthier neighborhoods/universities. This is not a university bus system. It is a regional one.

Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Too many people in this area do not have access to personal vehicles and rely on public transportation to get to their jobs, school and stores. We already have townships in Allegheny County no longer with public transportation like South Fayette. We have grown commercially with plans for more large businesses but shortage of employees will be an issue. I personally take the G2 to work and use the T to get to downtown and north shore events. Eliminating affordable transit options will impact working class fans and add to already heavy traffic. College students in the city rely on the 28x to get back and forth to the airport. The new airport will need employees who may rely on buses to get there. If downtown companies expect employees to come to the city to work they may need to be the ones assisting with funding. We have a RAD tax that goes to parks, cultural events etc - public transportation is a more urgent need and you can provide free admissions locally to these events but the county residents will not be able to get there to use them.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Transit is a public necessity where not everybody should need nor want to afford the cost of car ownership to seek opportunities in the local economy. The proposed cuts to 75 bus and light rail routes,cutting service past 11pm, and fare increases will devastate mobility and livability in communities across Pittsburgh, and is quite frankly shameful.
I kindly ask to revisit this proposal and investigate with a critical lens on how this would drastically affect everyday people who rely on transit as the most economical and efficient way to get around. And I'd also ask what is the goal of these cuts, and if those goals far outweigh the overwhelmingly negative effects of decreased transit investment.
Please indicate if you oppose or support the proposed fare increases:

SUPPORT all proposed service reductions
Service change impacts (bus and rail):
N/A
Other comments (bus and rail service reductions):
Regardless of whatever amount of funding that PRT receives from the state of Pennsylvania, PRT should begin immediately to fund a higher percentage of its expenses through passenger fares for its services. If that requires cutbacks to services, then PRT should pursue the service reductions necessary.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
All of the increases described above (for example a fare increase from $2.75 to $3.00) are too small. Fares should be increased by much more. Perhaps as much as a 30% or more increase, in line with the recent Allegheny County property tax increase.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
Less than once a month
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Shopping
Entertainment
How do you identify yourself? Select all that apply.
White
What is your age?
65-74
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$125,000 to $149,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: P67 MONROEVILLE FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Having a direct bus from monroeville to downtown is needed for many that work downtown. The 67 is great but the travel time through Oakland is too much and it's constantly crowded due to the Universities. It would be great if we could just have the p67 where it would have a safe spot along the route where people could change busses if they are going to Oakland. I feel like the 67 & p67 just need to update their route or just have the 67 come more frequently instead of every 45 minutes.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The nearest other transportation option would require me to go up and down a steep and dangerous hill in order to use. The 4 line allows me to stay safe by skipping the hill entirely. And I am currently living with someone who uses a motorized chair who also uses the 4, and she is completely incapable of traversing the aforementioned hill.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
I am living paycheck to paycheck. The proposed changed would drastically affect my budget each paycheck, making buying the essentials more difficult.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
Please do not eliminate the silver line or cut the red line. Light rail is so important to our communities for access to transportation, and as an environmentally friendly move of travel. We live in the south hills in part specifically because of the trolley. These neighborhoods depend on the red and silver lines.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
If these service reductions occur, I will be unable to get to school from my home. I rely on the 36 and 41 to get to downtown. I am a college student at Duquesne with no other means of transportation. This would make my commute to school(and work in Oakland) extremely difficult. I don't have the means to buy a vehicle currently, I don't know how I would get to school. I also have used other buses such as the G2 to get downtown and cutting back on those bus routes would make much difficulty as well.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
SUPPORT all proposed service reductions
Service change impacts (bus and rail):
N/A
Other comments (bus and rail service reductions):
If the business needs the people to get to work or to shop then why can't they be the ones to help support the transit and I don't see why the people riding the bus can't pay a little more after all they think everyone should make $15 dollars an Hr. that has caused everything to go up in price

SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't like the idea of increasing fare but maybe there are other ways to help people with being able to afford it. Example I don't know why there aren't more bus programs for jobs and business. There should be discounts for companies if they are patriating in a program with PRT. Maybe the city can also help with those programs to get more companies to participle.

Other comments (bus and rail service reductions):
This would further drive people into poverty based on their location. In a society where pollution and carbon emissions are harmful to every person as well as our environment we should strive to better and expand out public transit, not cut it. I cannot imagine living in a city which does not offer a robust public transit, such services are valuable and expected in developed societies. Cutting valuable services will undo years of progress. This would be an absolute shame and undoing something of this magnitude seems unrealistic given historic examples.

Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
less job oppurtunity for those who do work public transit as well
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for ACCESS or other essential expenses
Other comments (ACCESS fare increases):

Other comments (bus and rail service reductions):
While I can understand the need to cut routes, to make public transportation inaccessible to so many people is not the answer. How many people will not be able to go to their jobs, school or leave their homes because you took away their only means of transportation.

Oppose or support specific reductions.
OPPOSE: 2 MOUNT ROYAL (Elim.), P13 MOUNT ROYAL FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I can see where funding being short would hurt certain routes, BUT the current cuts would cripple the North Hills Area deleting the 2, the P13, the N/A1, N/A5, and the N/A12? There aren't many options left for anyone to take. The 12 is the only option left but you have it marked for major reductions in service. As it stands, I'd have to drive somewhere to catch that bus and with the service times stretched out so far, I'm not sure if there would even be room on the bus. Plus, with my work schedule, not sure how to catch the bus so I can actually arrive and depart at a decent time. Frustrating all around.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 2 MOUNT ROYAL (Elim.), 4 TROY HILL (Elim.), 13 BELLEVUE (Major Reduction), 16 BRIGHTON (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction),
Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have extreme difficulty to assist with grandchild's childcare, since she lives in Troy Hill and that route is proposed to be cancelled
Other comments (bus and rail service reductions):
The statement that routes like 4, 13, 16 overlap with other routes is questionable. There is no other bus that goes into Troy Hill. Walking up into that neighborhood on foot is not an alternative for mobility-limited persons, such as myself. Of course they overlap when looping through downtown and other heavy traffic areas, but otherwise they are unique routes. I take 13 and 16 to my pharmacy and to volunteer at Northside Community Ministries. There is no "overlap" with other routes, from my nearest bus stops. There are many days I cannot comfortably walk the distances, either to the alternate bus stops for these so-called "overlap" lines or to walk those destinations. Line 54 which is my frequent route to health care providers and the nearest fitness center already has limited offerings over the course of a day. I fear ridership will only decrease if riders have to wait longer in public places for pick up. Benches for sitting are not always available for longer waits.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I take the bus to and from work every single day. I start early, at 6:3N/A. If there are reductions in service, I would have to completely change my schedule to arrive for work everyday. I also use the bus to get to the grocery store and other shopping needs. This would severely impact my day to say life.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
I can afford the cost - however, I know that there will be hundreds of people in my community that will not be able to afford increased fares. This will disproportionately effect low income communities who already rely on transit for a cheaper transit option.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
With the amount we pay every year in taxes as working folks, this refusal to fund basic public services is a slap in the face. I understand that this local problem is related to a nationwide trend towards cutting various services that for some are a matter of life and death, and I wish to express my deepest disagreement with the views and decision-making informing this trend. I take the bus everyday to commute to work, and am lucky enough to be able to afford a car to supplement, but many people who cannot afford a personal vehicle rely on these services to survive. For them, there is no alternative, and these cuts will completely reshape, if not destroy, their lives. This is unacceptable.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The T is a wonderful mode of transportation and I personally have used it for over 4N/A years. Eliminating this service would be so detrimental for anyone workibg in town that kives on the T route
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If those increases keep the Library T running I am ok with it

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Why eliminate the ONLY public transportation available in the area beyond Washington junction. There has to be a better way to solve the budget issue. This service is already restricted to 2N/A- and 3N/A-minute intervals. If a reduction is necessary, provide service to Washinton Junction and have commuters transfer to the lines continuing into the city.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
The fares are high enough.

N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I am an older adult but not yet a senior citizen so I pay full fare and rely exclusively on public transportation (specifically buses) to get me where I need to go as I don't drive. I realize that this is all happening because of a financial decision but it's going to make life very difficult. Yes, a .25 increase in fares will make a difference in my monthly fixed-income budget, not to mention that everything costs more than it used to. We already pay more than many cities for transportation. And cutting routes will be more insult to injury as certain parts of the city will be inaccessible! The federal government considers folks "seniors" at 62, able to draw Social Security, couldn't PRT adjust what they consider a senior citizen to 62? And Access isn't an option until 65 either! Yet I'm able to live in senior housing at 62! Oof! This is just SO disheartening! Come on, PRT, do better, reach higher!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
Other comments (bus and rail fare increases):
If fares go up, I will definitely have to take fewer trips. As it is now, I am very cautious about the number of trips I make in any given month - I am on a fixed income. I am also a senior (62) but not eligible for free rides or Access.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Please keep as many service lines running as you can and keep the Y47, 51L, the busses to Greentree, Brookline, Bridgeville, and other South Hills areas. I literally will not be able to take the bus to get anywhere I need to for work or medical appointments without the great public transit system that is currently in place. I'd need to spend a lot more money and move to be able to get to my current job.
Please also keep the overnight service running. I know some people who work late at night or overnight and they will not be able to get to their jobs or be able to commute anywhere with the new proposed cuts after 11pm on service. There's also a lot of people that use PRT with sporting events, concerts, and celebrations that use the transit late at night and would not attend the city's events because of the new cuts if they go into place.

OPPOSE the proposed service changes
Service change impacts (ACCESS)
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
ACCESS is a vital service for disabled and elderly individuals and is a great service to the city. Making these cuts would make it difficult for anyone utilizing these services to be able to leave their homes. My Dad uses ACCESS and if the service is cut for him, he will go stir-crazy since he will not be able to make it to any doctor appointments for care.

My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I work in Oakland and live in Library. Already my travel time to work requires the Silver line, currently a transfer to the Blue or Red line because of the work on the transit tunnel, and then a bus once I reach downtown. It's nearly an hour and a half each way. I HAPPILY did this commute every day to live where I am. The elimination of the Silver line would completely cripple my commute and force me to try and find daily rides at 6:3N/Aam to Washington Junction so that I can get to my work by 8am. So many of us rely on the Silver line as part of our commute. Please please please do not eliminate this line. We cannot afford to live in the city, and I do not want to leave my job. I love my job.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
If it means keeping open the lines I use, I support fare increases. As I imagine most people would. We are willing to pay for our transit. However I find it borderline cruel to eliminate all these bus lines and the light rail and then ask people who have no other way to get to work and must now figure it out themselves to pay more. You'll be leaving a lot of your population out in the cold.

Please tell us about any difficulties you had completing this form:
I write in strong opposition to the proposed 9% fare increase and the significant service reductions to Pittsburgh Public Transit, including cuts to the ACCESS ADA service area. If adopted, this proposal would disproportionately affect students, faculty, and staff at the Community College of Allegheny County (CCAC), many of whom rely on public transit as their primary means of transportation to campus, work, and home.

Public transit is a vital lifeline for educational equity, and reducing service while raising fares undermines the accessibility of higher education for thousands of CCAC students. Many of our students are working adults, parents, or first-generation college-goers who already navigate financial constraints. Cutting routes or extending wait times will not only hinder their ability to attend classes consistently but could also lead to higher dropout rates.

Even more alarming is the proposed shrinkage of the ACCESS ADA service area, a move that would directly threaten the independence and mobility of individuals with disabilities and older adults. ACCESS is more than just a ride; it is a critical resource that enables people to attend medical appointments, maintain employment, and engage with their communities. As the American Public Transportation Association has noted, “reducing paratransit service disproportionately affects those with the fewest alternatives, often leaving them isolated and vulnerable.”

We urge you to reconsider this proposal and instead work with stakeholders—including educational institutions and advocacy organizations—to find sustainable, inclusive solutions that prioritize accessibility and community well-being over short-term cost savings.

None of these apply to me
Other comments (bus and rail service reductions):
Concerned for those who rely on transportation to go to school, work, see friends/family, go to appointments, stores. The cost of vehicles is very difficult for most people right now too and the need for public transportation is crucial. Perhaps eliminate excessive routes where there are empty seats -consolidate to busier times at least.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I take the bus to work and school everyday. Cutting these transit lines would add more than an hour to my daily schedule as well as all of my friends schedules. I also rely on the bus to get me to all of the neighborhoods that I cannot access without a car or by walking. My car recently had to be scrapped so I really have to reply on public transit and now I wont be able to do leisure activities that I enjoy and spend my free time doing.
Please indicate if you oppose or support the proposed fare increases:

SUPPORT all proposed service reductions
Service change impacts (bus and rail):
N/A
Other comments (bus and rail service reductions):
I rode the bus for 26 years into town for my career at the Federal Building. There is no question that routes need to be cut, as has happened in the past. Far too many buses ride down the road with little or no passengers at all. Also, as is the problem with government in general, there is way too much administration and management "fat".
Please indicate if you oppose or support the proposed fare increases:

Other comments (ACCESS fare increases):
I have lived all my 63 years in Pittsburgh. I grew up without a car until I was 28 years of age and was able to purchase a car. I can't believe how poorly managed PRT formerly PAT has been. There has got to be some other way to get transportation throughout this major metropolitan city that is cost-effective and customer friendly.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Every service reduction is deeply troubling but the Airport Flyer change is particularly concerning to me. I live in Shadyside and that bus is my main access to and from the airport, forcing a transfer downtown will add a significant amount of stress and travel time to that trip.

Other comments (bus and rail service reductions):
I strongly oppose the elimination of bus service. I specifically chose my home location based on its public transportation access, which research shows positively impacts property values. More importantly, this service is vital for our community's young people who rely on it to access jobs and education. Without affordable public transportation, we risk limiting economic opportunities for our youth and reducing our neighborhood's accessibility and value. The bus service isn't just a convenience—it's an essential infrastructure that supports our community's economic vitality and future workforce development.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm especially opposed to eliminating bus service to Brookline, which would directly affect me and people I know. I can't think of one positive outcome of cutting a third of all public transportation in Pittsburgh. What's going to happen to the thousands of regular folks who need public transportation to get to work and the grocery store because they don't have their own vehicle? People would lose jobs, traffic would increase, those who have the means will move away from Pittsburgh, those who aren't able to relocate will suffer severe socio-economic distress, people will spend less, tax revenues will decrease, companies will struggle with talent acquisition and leave the region, people will be more likely to drive under the influence, etc.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 54 NORTH SIDE-OAKLAND-SOUTH SIDE (Major Reduction), 75 ELLSWORTH (Major Reduction), 81 OAK HILL (Major Reduction), 82 LINCOLN (Major Reduction),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
These routes would be affecting healthcare workers, students, and other workers.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
PRT is used by low-income members of the community; I'd advise against raising fares especially in these current economic conditions to preserve the financial well-being of those who are already struggling enough to not own a car to get around the city. If the fare increase is necessary, I'd assume the bus routes would be coming more often (more budget for driver hires) or cleaner buses and infrastructure.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Relying more and more on private vehicles will only increase travel times, congestion and poor air quality. We need a city with dynamic and robust transit options.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Public transit is a PUBLIC good. It is needed for everyone to access the city. Public transit is not meant to make money. When was the last time a road made the city money? Yet we continue to pave and re-pave more and more
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Folks with disabilities cannot be left behind or forgotten. Often times, folks are on a tight fixed budget and cannot afford other means of transit and do not have other options.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
Money is tight, especially for people with disabilities on a fixed budget. We cannot increase fares.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I am retired and do not own a car. I am very active and travel to points to many Allegheny County neighborhoods for a variety of activities - social, political, educational, cultural, recreational. Many days, I have four or more transit trips. The proposed cutbacks would greatly diminish my life.
Other comments (bus and rail service reductions):
We need to be moving away from automobile use to transit use in the urban areas where transit use is clearly more advantageous in terms of economic costs, environmental costs and health costs. As a matter of state policy, transit use should be encouraged, not discouraged.

Service change impacts (bus and rail):
My travel time would greatly increase
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This will affect entirely too many people, and our public transit will basically be nonexistent. I live on the Red Line and do not feel that will be an actual means of transportation for people in my neighborhood/area anymore. This will also directly affect my job. I teach at a charter high school downtown, and students must use public transit to get to our building. The school would possibly have to close because of this.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
Implementing these service changes will severely hamper our region's economic prospects. The effects (traffic, pollution, car-centric living, lacking modern urban amenities, declining property values, etc.) will extend beyond immediate users by deterring new talent from locating in the area. We have been experiencing a hollowing out of our tax base for years due to disinvestment; this action would accelerate and exacerbate the situation immensely. With unsteady state/federal support and meager fare box revenue, alternative funding/financing vehicles must be considered by City of Pittsburgh, Allegheny County, SW PA regional, and other municipal leaders. To offer a personal anecdote, the proposed changes have influenced my family's decision to move out of Greenfield, as all viable service would be removed from the neighborhood, even though the public comment and pop-ups were littered with Greenfield-specific worries. These changes represent a gigantic step backward FOR THE ENTIRE REGION -- NOT JUST TRANSIT USERS that will not be easily reversed. I would seriously consider moving our young, high-income family to another metro area if the public transit here becomes unworkable. Many others will do the same and the region will suffer.

My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I would like to protest the proposed changes in train service. I often travel the silver line. If it were eliminated, I don't know how I would reach the places that I visit. (Will there be a bus along Library Road?) Also it would be considerably inconvenient if South Hills Village service were limited to the blue line. I live along the red line and changing trains at the pathetic Overbrook Junction/Willow station mess is a real misery. Please keep the red line as is and, if something must be eliminated, run the silver line into downtown and eliminate the redundant blue line! Whenever I have taken the blue line, I have found it to be little traveled anyway.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
Other comments (bus and rail fare increases):
The increase in the annual pass is too much. Not sure how I would adjust to that.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
In the face of a climate crisis and cost of living crisis, public transportation is a particularly vital service and one that gets residents to services they need and the businesses that need them to get in their doors. I'm worried that cutting service would have a drastic impact on not just the quality of life of residents but the ability of businesses to function as well as they could as a sort of unrealized ripple effect.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
While not as bad as outright cutting routes, increasing fares will affect residents including myself and might tip the scales to make single occupancy vehicles more viable economically. This has the potential to exacerbate issues with air quality and pollution in the region.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
As a student at Carnegie Mellon University, the reductions to the 61 and 28X lines greatly impact me as a student living off-campus. The reduction of the 61 buses to stop running after 11pm would be greatly detrimental to me on days where I need to stay late on campus, and it is absolutely for me to have access to the 28X to get to and from the airport during holiday breaks.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The proposed changes would eliminate almost all flyers, which is what a lot of working people take to get into town to their jobs. Why eliminate so many flyers? The P1N/A has been a safe, reliable way for many working people in the alle-Kiski area to get to work. I would pay triple the transit fare to keep it. Getting rid of it is going to hurt a lot of people in Westmoreland county who don't have many options for public transportation to begin with.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (ACCESS service reductions):
I pay county taxes. I should get county services! Wheel chair bound husband won't get to church or medical appts. Neighbor is blind and won't get to work. How dare you chopped this service area out. It is already undependable. ALL of the county should have Access and someone should be held accountable when service is denied. My husband is the first caller in the morning when he can first request a ride and is denied. Yet my sister in law in North Braddock can call anytime and get service. Please explain . Everyone cannot just get into a car be driven. Are you saying all these people should be institutionalized! How much is that!

Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 2 MOUNT ROYAL (Elim.), 4 TROY HILL (Elim.), 14 OHIO VALLEY (Elim.), 29 ROBINSON (Elim.), 38 GREEN TREE (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to pay at the very least $20 to commute from home and back. I would have to utilize ride shares like Lyft or Uber. It would be ABSOLUTELY to eliminate the 4 or any of the routes I've selected. All routes that I use are up for Elimination. 86ing the route 4 bus would be neglecting a very small neighborhood of people who use this bus to commute.
Other comments (bus and rail service reductions):
The Route 4 is already unreliable as it is. It would be imperative to possibly adjust this route and its times. I would suggest this route should only be limited to Troy Hill and instead of the bus running every 45 minutes to an hour (if I'm lucky), the bus should frequent every 3N/A minutes. The PRT rarely does anything to appease its riders/customers. This absolutely doesn't not make sense. I don't think you realize, understand or even care about the impact this could have on multiple communities and neighborhoods all across Pittsburgh. Also, Troy hill is not accessible for physically disabled folks who need the bus to get themselves up and down Troy Hill. No one wants to walk up and down Rialto or Troy hill rd especially with the hot summer months coming up (heat strokes are a possibility with this elimination. Health could also be impacted.)

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm a teacher at City Charter High School, which is located downtown. Nearly all of our students rely on PRT service through the bus or T. If the proposed cuts occur, a number of our students would no longer have access to public transportation that gets them to school on time or at all. Pittsburgh Public School students come to our school because we are often a better option than their neighborhood school. The cuts would remove this option. We also have an incredible, required Internship program. Students are placed at sites around the city, and students need service mid-day to get to their internship placements. Again, if the cuts occur, this will jeopardize our Internship Program. Finally, I worry about declining school enrollment and ultimately what may happen to our school if students no longer have easy access to public transportation that gets them to and from downtown to their homes.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The changes are unacceptable. Public transit in this city is bad enough, we're a joke compared to other cities and now it's proposed to cut it even more. This will drastically affect so much of Pittsburgh. It will affect the economy, the livelihoods of many. It's a terrible idea unless you want to see our city in decline.

Other comments (bus and rail service reductions):
as someone who lives in an area with only 1 bus, cutting the 4 is crucial. people use the bus at their main sort of transportation, grocery shopping, seeing family, school, work etc. not only are you cutting our only bus but your taking away the only source of transportation for hundreds of people. instead of cutting the 4, why don't you cut one of the multiple buses you have run through Oakland? or out Freeport or etc. please really think before you make this decision considering.. it's our only source of transportation and some people don't have the money to afford any other transportation.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Transit Decision Makers,
I'm a single, disabled resident of Shaler Township. Some of the disabling aspects of my condition prevent me from driving which has led me to use both the PRT and Access. Both of these services have allowed me to regain some independence within the last couple of years.
Through the course of my disability, walking has been a challenge. However, through physical rehab and determination I've overcome much of that challenge, on a fairly consistent basis. Recently, not without significant physical effort, I've been able to walk to the 2 Mount Royal bus line to utilize the bus service. This has been incredibly liberating for me, opening pathways to go to the Ross Park Mall or downtown Pittsburgh.
Access allows me to travel to other locations not on the bus lines. Specifically, I'm able to visit my elderly parents through the use of Access. Again, this is incredibly important to my independence and lifestyle and has given me the ability to be a supportive son.
As I've overcome some of my physical limitations and begun to map a future utilizing PRT services, I've become more joyful and confident. I was crestfallen to learn that the funding does not exist and both the Access and bus services on which I rely will be discontinued. My independence and quality of life will be significantly diminished; highlighted by increased isolation.
The impacts of discontinuation of so much public transportation goes far beyond my circumstances. Reducing access to public transportation will hinder this region, limiting its ability to attract new businesses and grow its population base. Outside factors such as the Covid pandemic unquestionably influence public transit use but I'd ask decision makers to be open-minded to future dynamics that will influence public transit. For instance, President Trump's increased tariffs on automobiles will quickly drive prices beyond the financial reach of many people. Those people will be looking for transportation alternatives and the PRT should be positioned to fulfill those needs.
I respectfully ask the PRT to please consider these hardships when making routing and service decisions. Also, I petition the state and other funders to realize how important public transportation services are critical in all neighborhoods of Allegheny County, particularly for the elderly and disabled. These services are critically important for my quality of life. Please do not eliminate 2 Mount Royal and Access.
Sincerely
Thomas Quigley

Oppose or support specific reductions.
OPPOSE: 2 MOUNT ROYAL (Elim.), 4 TROY HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
I am primarily concerned about getting to work and back. Car primary. Bus backup. If I have neither I have no idea how I'd get to work.
#2 route goes closest to my work. #4 gets me in the general area.
The #4 stop I use us Stop ID: 2746 Troy Hill Rd + Goettman. Get off at Stop ID: 2786 MT Troy Rd + Geyer. Then have to walk a significant distance down the roads where there's no sidewalks.
The #2 stop I use is Stop ID: 2N/A673 East Ohio St + Heinz. Get off at Stop ID: 1212 Evergreen Ave + Franklin St. Then have to walk some distance but it's not bad.
My work is near the Ruckus Cafe on Babcock Blvd.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Raising our fair would make taking the already barely there bus and rail services of the city virtually unusable. Making bus fair in PITTSBURGH, PA. Where the minimum wage is STILL $7 and raising fair so it is more expensive than NYC is a ludicrous action. No one will take the bus, the highways and roads that are already backed up and difficult to navigate and falling apart will only clog up more because of the bussed lack of schedule. I actually can't fathom what a reduced schedule would look like considering how little services already exist. It takes me 2N/A minutes to walk to the 61b from where I live and the bud still only comes once every 3N/A minutes and takes me an hour to get downtown. How could you possibly make that worse? By removing it entirely? Then I will not use the city resources bc there are no others that exist. I will not spend my money on services downtown because I will not be able to get there. The economy of the city you are trying to restore will die even more.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses

OPPOSE: 53L HOMESTEAD PARK LIMITED (Elim.), 58 GREENFIELD (Elim.), 65 SQUIRREL HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
If the 58 is cancelled entirely that would be irresponsible to the entire greenfield community. And to also cancel the 53L leaves no viable public transit to and from my job in downtown Pittsburgh. This would be a huge disservice to the loyal riders of PRT.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Almost all the important buses in my area that I use on a weekly basis are being shut down entirely, and the closest one besides those is down a steep and dangerous hill with little to no sidewalks in some places. I'm currently going to school downtown, and will continue for the next few years. While attending school I also plan to continue my job, which I NEED my bus service to continue to work. Over all, these proposed changes are deeply disappointing and will affect too many people. The amount of riders that depend on these services is staggering, and I hope the people opposing it are able to make a difference.

Other comments (bus and rail service reductions):
It is already hard enough to get kids to school downtown. By eliminating the p71 you take away a bus that comes right to our neighborhood and drops them in a safe part of downtown. This leaves us with either driving them to busway station which is not feasible in the morning and we are unavailable to pick them up in the afternoon or the 61b. The 61b will have reduced service making it harder to get one at the correct time and it is a much longer bus ride hat drops them in a much less safe part of downtown. For all the tax money prt gets from our schools providing kids with bus passes taking away busses that get them to school quickly and safely is abhorrent. These are children you are endangering. I have been trying to get the school board to demand better routes with stops closer to schools for years. They obviously are not going to do anything but all these kids need to be taken into consideration before you eliminate 4N/A+ routes.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Shopping
Entertainment
Social activities
How do you identify yourself? Select all that apply.
White
What is your age?
35-44
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 5-6
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Affordable transit options are essential to our community. Many of my neighbors rely on the bus to get to work, the grocery store, and medical appointments. Fortunately, my husband and I share a car. But when one of us does not have access to our vehicle, we need to use the bus to get to work.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would take less public transit trips
Other comments (bus and rail fare increases):
$3.00 per ride is very expensive and unaffordable for many people in our community.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
These changes will effect the senior and the disabled community
Other comments (bus and rail service reductions):
You will make it harder for People who suffer from Mental illness to get to their program, appointment and might relapse and end back in the hospital
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
By increases the bus fare lots of disabled people would be stick at home and get depressed because their can't afford the bus fare

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
Other comments (bus and rail service reductions):
This is not the first time PRT or Port Authority has reduced service in the county. I think PRT should be privatized. It's clear you can't handle managing this business. You just started talking about getting more service to more areas that are undeserved and now this.
Please indicate if you oppose or support the proposed fare increases:

Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
I have a free pass. My adult daughter who pays per trip will be affected.
Other comments (bus and rail fare increases):
You need to make sure the tills work because half the time they are broken in one way or another. And, you need to put a Police Officer on every bus to make sure people are paying. What is your contract with the Universities who get free bus rides with their passes? Is that something you need to look at potentially renegotiating? I don't know it would be interesting to see how that is managed between the Universities and PRT.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
I work with people who have low vision or who are blind that rely on public transportation. Cutting routes and access service will directly affect their ability to work, travel to doctors appointments, leisurely activities, et cetera. Our agency also serves intellectually disabled clients who rely on these programs as well. This is another low blow to the disabled community as they fear for all of their benefits to be cut and now they must worry about transportation.
Other comments (bus and rail service reductions):

Other comments (bus and rail service reductions):
No where have I seen suggestions for reducing expenses other than cutting service. I routinely see multiple busses [6 to 12] parked in the lot on Yost blvd. These are new double capacity units. This suggests major mismanagement. It is time to see suggestions that indicate serious consideration of the compensation and performance of those responsible rather than just eliminating routes.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Myself and others in my neighborhood rely on public transportation to get to work and medical appointments. Reducing bus lines will harm people's health and make an already challenging financial time worse. Public transportation is public health! Our community deserves safe ways to travel throughout the city, and reducing bus lines will harm people.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Again, it's a challenging financial time, and increasing fares will harm individuals.

How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
Medical care/appointments
How do you identify yourself? Select all that apply.
White
What is your age?
25-34
How would you describe your gender identity? Select all that apply.
Non-binary
Which of the following best describes your 2024 household income?
$25,000 to $49,999
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
I can't drive due to medical conditions. I'd essentially be stranded at home. Plus the number of my co-workers and the students I see constantly riding a bus. This is a community necessity.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
Other comments (bus and rail fare increases):
Paying for the bus already takes up $100 of my paycheck. I spend less money on food! An increase in bus fare would be devastating to my finances.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
"With the raise, Kelleman's base salary increases to $312,N/AN/A1. Her bonus for 2N/A24 was $55,542, which amounts to 18% and pushed her total compensation to $367,543"
This is where the money can come from. The CEO has no need to be making so much money that the rail/bus system cannot sustain itself. The city of Pittsburgh is already difficult to navigate. I use the bus every day to get to and from work. If these proposed changes occurred, my bus route would be eliminated entirely (4N/A). This would impact not only myself, but so many of my neighbors that rely on public transport. There is only 1 way off of Mt. Washington if you cut the 4N/A, the incline, and the Monongahela Incline shuts down every other week of the month due to issues.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Government expects people on welfare to work to collect assistance. However a lot of those people depend on the buses to get to there jobs. If they lose their jobs because of no transportation then they lose their benefits then what. Not everyone can afford a vehicle. Why is it that it always affects the lower class the most. I depend on transit for my physical and mental wellness. It's been a blessing without it im not sure how I'd get to certain appointments, if at all.
Please indicate if you oppose or support the proposed fare increases:

The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
It wouldn't end at one increase . Fare is already high. Especially when you need to pay for more than one family member.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
I would no longer be able to access medical care locations
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
I depend on access for last resort to get to medical appointments at times. However, I can't speak for others and their disabilities and why they may need to depend on it and the time line as well. I'm ok at a cut of time but my health isn't as severe as others in need so I'm blessed on that I can make appointments in a reasonable business hours. Not sure of others though and would hate to be in their shoes and someone cut their lifeline.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I lot of seniors depend on access and struggle financially but also depend on access.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I live in Shadyside, and the major route reduction in the 28X airport flyer would impact me the most. I have for years relished—and saved money by—taking the 28X to and from the airport fairly regularly, for both processional trip, family visits, and vacations. Because I have the money to fund other options, the change whereby the 28X no longer runs within Pittsburgh city limits would mean I simply would not take the bus at all for those trips.
I am able-bodied and live in a place where, if the bus wait time is too long or the revised route too onerous, I can choose to walk, ride my bike, summon a ride share, or, if necessary, take my own car. I am conscious that the change in route or elimination of other bus routes would have an even greater negative effect on many in my community who do not have access to the same alternatives. Reduction in services will always have a greater impact on people who are disabled and/or lack sufficient financial resources for transportation alternatives.
It would be a disgrace to our community not to step up to this challenge—we must figure out a funding solution that does not require these drastic cuts, and I for one would be happy to pay additional taxes if the revenue from those taxes could translate directly into maintaining and enhancing public transit options for Allegheny County. We owe it not just to our neighbors but to ourselves and our children to reduce our dependence on transportation via individual automobiles. Mass transit is key to any effort to achieve this goal for our community. Everyone benefits from the reduction in traffic, increased safety, and decrease in environmental hazards. We need to fund our public transportation system so that it is available and useful to all.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Bus and rail are a vital way to get from point A to point B in a way that actually supports civil and community engagement. I may not always like sitting on a crowded bus/rail car but it forces me to interact with others in my community. Eliminating that contact only serves to deepen separations between other members in the community.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I don't "like" fare increases, I don't think anybody really does, but they are simply inevitable as the cost for everything rises, this too becomes a necessity. I especially support increased fares if it means that service routes are not eliminated.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
None of these apply to me
Other comments (ACCESS service reductions):
I work with individuals who rely on ACCESS as their sole means of transportation, limiting/reducing ACCESS would eliminate their ability to connect with community members in meaningful ways. It would create isolation and limit the ability for a vulnerable population to lead fulfilling lives
Please indicate if you oppose or support the proposed ACCESS fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (ACCESS):
N/A
Other comments (ACCESS fare increases):
As with other fare increases above, I don't "like" any idea of increases, but understand the necessity.

Other comments (bus and rail service reductions):
The bus allowed me to continue living and working in this city, and now I'm a Pittsburgh home owner. To say that my life would be completely different without the bus in Pittsburgh would be a huge understatement. When I was a student at Pitt, having a bus route from Brentwood to Oakland was the only way I was able to continue my education, as I could not afford a car, my home was not near a T stop, and biking from the area was not safe or feasible. If I didn't have a bus route or if it was cut, I would have had to either drop out of school, move away, and/or incur tens of thousands more in loan debt in order to live somewhere else. The bus has been absolutely crucial to my life and my wellbeing, and it truly pains me to think about the possibility that if these cuts happen, a student might face this kind of barrier to continuing their education if their line gets cut. The bus has been a true lifeline for me in my life; please let it stay a lifeline for others.

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
While I primarily use bus lines that are not being eliminated, the reduced schedule with greatly impact me and my schedule. The 71B and 71D are often full and reductions to service will cause even longer wait times because even more people will not be able to get on the bus once it is at capacity. If the schedule changes and significantly increases wait times, it may benefit me to begin biking to work instead of taking the bus.
Additionally, I almost exclusively use the busses to return home from outings out to visit bars or other entertainment venues. The across the board service cut at 11pm will prevent me from patronizing local bars and venues that are outside of my neighborhood because I cannot afford to pay for rideshares.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
As a Pitt staff member and student, I benefit from their contract with PRT to grant all staff and students free bus access. The vast majority of individuals taking the busses that I am on are using their university affiliation to ride, meaning that none of those bus users would be paying an increased fare and contributing to PRT's revenue. Instead, PRT should increase costs of contracts with local universities to help subsidize their revenue instead of making non-university affiliated bus users bear the burden of higher costs.

Other comments (bus and rail service reductions):
For many years I drove to work. But I worked and supervised many employees who relied on public transportation to go to work, shop and worship. I am hoping that the people that are making these decisions are also those who rely on public transportation. I sat in many of board meetings that the people making the decisions had little idea how their votes really affected the people for whom they were casting a vote for. I am glad that a public survey is available but again, how many of the people that are really going to be affected have the technology or knowhow to speak their mind.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):

Other comments (bus and rail fare increases):
I am hoping that the .50 cents or $2 would be reflected in pay increases and would not be a hardship for those who rely on public transportation. Perhaps a system could be developed for minimum salary versus transportation increases.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
The easiest way for me to go into the downtown area of Pittsburgh is to park at an outlying Park and Ride and travel on the Silver Line light rail. Driving from out where I live would take longer, plus the trouble and expense of finding parking in the city.
Please indicate if you oppose or support the proposed fare increases:

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I'm a fairly new public transit rider, having recently bought a house in an area with an accessible and reliable park-and-ride. At my previous location, there was no reasonable way to catch the bus, so when we chose our new home, access to public transit was a major factor. Being able to save money on gas, parking, and other commuting costs meant we could reinvest that money into our home and living expenses.
Beyond the financial savings, public transit has greatly improved my mental health. Driving into the city every day — especially dealing with the reckless and often downright dangerous drivers on Route 28 (if you know, you know) — took a serious toll. There were days I genuinely feared I wouldn't make it home.
I love my job and truly enjoy working in the city. However, if the bus route I depend on is cut — a route that heavily influenced where we decided to live — I will likely be forced to find a new job. Given that my career niche is primarily based in city businesses, this would be extremely difficult.
Through my experiences, I've also come to see just how vital public transit is to so many people, especially in towns east of Pittsburgh. Without it, we have no other realistic way to reach the city — no subway, no T, no alternative. This level of reliance on public transit is exactly why investment in it is so critical.
We don't build cities that are naturally accessible, so we must prioritize creating accessible avenues where people can thrive. Also, every public transit worker I've met has been kind, accommodating, and a skilled driver. Service cuts don't just hurt riders — they also hurt the hardworking people who keep the system running.
I sincerely hope a better solution can be found — one that doesn't involve cutting off access for the many people who truly need it.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I'm not opposed to a fare increase. It's unrealistic to expect costs to stay low when the overall cost of living continues to rise — transit systems need to be able to cover their deficits. That said, I do recognize that the people most impacted by a fare hike are often the ones who rely on public transit the most. This is where supportive programs and services could make a real difference by helping those in need. If you're able to pay, you should — but we also need to make sure we're not leaving the most vulnerable behind.

OPPOSE: SV SILVER LINE LIGHT RAIL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The silver line enables access SHIM center in
Bethel Park. Employees ride silver line to jobs at daycare centers, all businesses along route 88 in Bethel Park and Library PA. Commuters riding to town rely on this rail line!!
This will decimate the Bethel Park businesses who rely on workers that can get public transit to the area. The Magistrate is located on the route for individuals with no cars or licenses. Students will no longer be able to commute to town for classes.
All sporting events, concerts, Cultural district programs will suffer if easy access to the silver line
is eliminated. I think with the NFL draft coming next year we would want access to events seamless from the park and rides in the south area to ease a potential traffic nightmare.

Other comments (ACCESS service reductions):
We can not go direct from the South Hills to Monroeville. We can not go direct from the South Hills to UPMC St. Margaret Hospital. We can not go direct from the South Hills to Robinson Town Center. We can not go direct to Oakmont. Trips have to go through downtown office where you sit and wait and wait. When your ride does arrive you then ride all over the place for what should be a 10 minute ride home! Many people with disabilities, including myself, can not sit longer than 20 minutes and ACCESS rides us all over the place often passing the street where we live. We need direct trips to other areas and better service and no ride should ever be an hour, let alone more than 1 hour ride. Why does PRT think all rides and buses need to go through the downtown? Less and less employers are downtown these days. The suburbs may be served by smaller transit bus service. Please get some masters degree sudents from our colleges and universities to work on strategies for transit, as they might do much better than the lousy consultants PRT has had.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would take less ACCESS trips
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
We are already experiencing less service that makes rides longer as there are not enough drivers and no competition for service! The rising cost will mean fewer trips for many people.

I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm a teacher and I ride the bus to school, I often see some of my students on the same bus, and the vast majority of them use the bus system to get to school. Students, especially those from economically disadvantaged families, can't afford any reduction in the bus lines as they would have a harder time getting to school and would likely either not come, transfer, or their parents would have to take time out of their already busy schedules to get them there. Please try to limit the route reductions as much as possible so that students can continue receiving the schooling they need.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I do not want any fare increases but, given the choice, I would rather pay a little bit more if it keeps more lines active. That's an acceptable trade off for me.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
My son takes Mt Royal but #2 to get downtown to work Monday-Friday. He does not drive due to medical condition, and does not have any other form of transportation. He needs the bus to get to his employment downtown. Many people do not have the finds for a car and insurance let alone the fees to park downtown. Please do not eliminate Shaler routes!

Other comments (bus and rail service reductions):
PRT has absolutely mismanaged the entire system. The service cuts and increased fare to be the 5th highest in the nation is ridiculous. This is not a Harrisburg issue. It has been miss managed for decades. Rebranding didn't need to happen. Also investing in the trolly stations toward downtown and isolating the silver line was a choice. Absolutely abysmal method of running the entire system into the ground. The public deserves a breakdown of cost/ measures that have been put in place to reduce current overhead cost. It is insane this is the proposed solution. Get money from the state government, (because we have no idea how to run a successful business) or we slash routes and charge more. The decision makers must be sent packing. We can not and should not fund the terrible decisions that have and are still being made.

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
Isolating the north hills from downtown would be a huge mistake. Many people rely on public transportation to get them to work as a cheaper alternative to ride services or parking their own car downtown. Giving the whole county access to public transportation throughout is the responsibility of the PRT and if it's at a higher expense I do think riders will pay it.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
N/A
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
- Essential Service for Employees: Highlight that this bus route is the primary means of transportation for many healthcare workers employed at facilities like Asbury, Concordia, Providence Point, Kane, and Vanadium Woods. Without reliable transportation, staffing issues may arise, directly impacting the quality-of-care residents receive.
- Care Continuity: Emphasize that consistent access to staff is necessary for maintaining the high standard of care provided to residents. The bus route is essential for employees to arrive on time and with fewer challenges, ensuring care isn't disrupted.
- Resident Welfare: Point out that residents of these healthcare facilities often require regular and timely attention, especially in emergencies. Any reduction in staffing due to transportation barriers could compromise their safety and well-being.
- Community Impact: Stress the broader impact of closing the bus route on the local community. It may also affect families visiting residents, other staff members, and ancillary services supporting these facilities.
- Alternative Solutions: Suggest looking into adjustments to the bus schedule rather than eliminating the route altogether. Maybe a reduced schedule could still serve workers while addressing other concerns.

Other comments (bus and rail service reductions):
While there are major budgetary concerns, completely removing the Silver Line from operation would lead to less revenue in the long run. As an outsider who cannot know the exact numbers, I would think removing the free fare zone status from Downtown could bring in a not insignificant amount of revenue.
Please indicate if you oppose or support the proposed fare increases:

I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
The 41 bower hill bus should not be eliminated or changed at all . There are 7 nursing homes and a hospital from west liberty ave to Bridgeville . Healthcare workers, family members and disabled people rely on those buses to be able to get to work and visit their loved ones. I certainly don't mind the increase in bus fare as long as the bus is left alone I understand that the fair needs increased, but please do not take away the 41 Bauer Hill it will completely, disrupt the whole healthcare industry that is already suffering as it is . For so many that cannot afford to have a car or cannot drive. This is the only means of transportation that a lot of us have to get to our job and other places we have always relied on Port Authority.

My travel time would greatly increase
Other comments (bus and rail service reductions):
There needs to be outside OVERSIGHT of initiatives for major & minor plans. Hundreds of thousands of dollar spent to change name from PAT to PRT was totally UNNECESSARY. Unnecessary change to bus logos, uniforms, schedule printing, all computer data, street signage, on and on. So now 'POOR management' is crying for more money. Very POOR management!!!
Second, how can 'POOR management' decide to make SUPPOSED improvements to a property around Tstops in Dormont. More monies they don't have! Oversight, please.
Third, they collect all data on numbers of riders on all routes, by time of day. Yet, I see the long accordion buses drive by with few riders. When will they invest in smaller buses? When will 'POOR management' USE their KNOWN statistics on where and when to use APPROPRIATE sized buses each and every day on their routes? I see lots of new long accordion PRT buses all over the city but not many smaller buses.
OVERSIGHT, OVERSIGHT, OVERSIGHT.

Other comments (bus and rail service reductions):
Why are we getting rid of and reducing what looks like 9N/A% of all routes in Pittsburgh? This makes no sense to me, especially all of the ones out North including O1 and O12, both of which are categorized as "High or Medium Volume" that are being proposal to completely eliminate? There is no T out North.. why are you getting rid of all public transportation that direction? Take away the South who has a T/means of transportation before you eliminate all routes North. STRONGLY oppose this.

Other comments (bus and rail service reductions):
Transit benefits not just the people who directly rely on it, but everyone in the region and even the entire state. People are moving to areas where reliable modern transit is an option. As it is Pittsburgh transit could use improvement, but we can point to the bus system as a strength. These cuts will badly damage that reputation and people will not be attracted, which hurts the entire state as PA is looking to reverse declining population. The state should via transit as a public service for all. Our family is able to share a single car by supplementing with busses. That's one less car to create traffic and pollute. We would not have chosen to live here without access to some transit.

Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Ideally transit should be FREE to encourage all to use it for trips of any length, make it super easy to use. Should not just be people who HAVE to use it. And from a financial standpoint, it is in the entire state's interest to keep our workforce available, to live close to where they work. And to keep traffic down.

How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
$150,000+
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to move to another home/dwelling where transit is available
Other comments (bus and rail service reductions):
Transit is an essential service that connects me with work and the city. It provides a tremendous quality of life service for me and it would be heartbreaking to see it cut. We need to be having conversations about funding more service, not cuts.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
This will have a catastrophic effect on the city of Pittsburgh. And it will hurt the lower income, elderly, or disabled people the most. We cannot be a community if we're not lifting everyone up.
For those that have the option to drive, it will make congestion and parking downtown a nightmare. There are already few parking options and congestion. People
May decide it's not worth it to go downtown anymore and cultural destinations and restaurants and small businesses and stores will all suffer.
In short, this will be a DISASTER for our city.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Once again, the lowest income people are being hurt the most! Please don't increase fares and put the city's financial responsibility on people who may already be struggling to survive on their income.
Please indicate if you oppose or support the proposed changes to ACCESS service:
OPPOSE the proposed service changes
Service change impacts (ACCESS)
The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
This will have a horrible effect on elderly and disabled individuals. This will take away their ability to get to medical appointments, essential shopping, social activities, and countless other things that they need to function in their day to day lives.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
It's not acceptable to place the city's financial burden on the lowest income community.

I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
The robust public transportation was the reason I moved here in the first place. If the roads of the city are the veins, the buses are what keeps the blood flowing through to keep it alive. If people lose the ability to access the routes already available, there's the risk of decimating the job market for low income and disabled workers as well.

SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Yes, it would be more expensive, but if there is an issue with funding, there should be consideration for the minor adjustment. However, the state should also raise the funding allocated to provide the ability for the PRT to easily maintenance busses, pay workers and keep all parts of the transportation system operable above minimum standards.

Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
As someone that is required to commute into a downtown office, these changes will impact my company, coworkers and myself in regards to flexibility for commuting. More people will result to driving which will further exacerbate our traffic problem in the city. My
company charges an excessive amount to park downtown so PRT is the only feasible option for getting to work. Current bus lines that are not being cut will become more crowded and difficult to access.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would have to make decisions about whether to pay for transit or other essential expenses
I would take less public transit trips
I would have to switch to another mode of travel
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Many people would not be able to afford the 9% increase as they would not see that type of raise with their income. For me, I would not take PRT if the cost for one way ride is $3. I believe they should factor in lost customers when considering price increases

Other comments (bus and rail service reductions):
As a student from another state moving to a city with a public transit meant not needing to ship my car here. That was a financial savings costs. After living in Pittsburgh, even if I could have afforded that I prefer public transit over having a car in Pittsburgh. I can rely on PRT for most trips. I do not have to pay for parking and gas, that would have increased my debt during these last two years of grad school. Having public transit is highly beneficial for students in the city. It has increased my quality of life.

Other comments (bus and rail service reductions):
I have been aware of the public transit cut and to say the least, I don't agree with it no matter the circumstances. This transit cut would impact not just me but every single person who uses public transit including the workers! It's being used to get to work, school, and used for everyday necessities to continue on everyday life for people who have no personal vehicle. To throw in, the use of a personal vehicle is clearly by choice so therefore, the people who don't like to drive, the people who have disabilities, and how we use buses now will all be changed and different possibilities will have to be arranged, difficultly. With some of that being said, I'm hoping to get a change in that situation for the sake of our people, our jobs, our education, our future ability to be on time, our ability to go outside and help others, and the ability to use public transportation how it should be. Thankyou.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
For the 87 the buses are to go through smaller neighborhood streets creating noise and hardship. They just put in roundabouts which the buses would not be able to get around so it would mean tearing them out, wasting money and providing speeders more options.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
A robust public transit system is vital to a functioning city. It reduces traffic, improves public safety, and allows people who can not drive a dramatically increased level of independence.
Even those who prefer to drive benefit from other people being given the option to take public transit, leaving the roads less congested, and with fewer people who should not be driving behind the wheel.

Other comments (bus and rail service reductions):
First off I understand the shortfall in funds. However I would like to know where the funding goes? The CEO and other higher up postitions should not take raises or be making the salaries that they are making. We the middle class and lower are the ones to suffer because of mismanagement of funds. The are upgrades being made on the busway, south hills, etc. and if routes are being cut/reduced why is the money being spent there when it will not be used? I live in the North Hills and we have limited transportation as it is. I read an article that the Ross N/A1 and McKnight O12 will be eliminated. That causes a lot of people to not make it to work in the downtown area. What are we supposed to do then? Driving is an option but parking in downtown is ridiculously expensive and not many spaces. The T was built for South Hills but not everyone has access to that especially people that do not drive. So to eliminate or cut back routes that affect these people just does not make sense! I personally will probably have to quit my current job that I have had for over 2N/Ayrs because of this. There needs to be an audit so the people can know how this money has been spent. And to blame it on the Governor or the Federal Gov't for not giving more money is ridiculous. I hope that an agreement can be met and no services are eliminated. Especially for the people that rely on public transportation for groceries, doctors, etc. and don't drive.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
An increase would help the situation as long as the increase goes towards keep the routes and not going into the pockets of the CEO or other higher up postitions.

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I would no longer be able to expect a bus without looking at a schedule and would have to plan my day much more actively. Speaking honestly, I would likely take on the stress of this planning and drive more frequently -- especially when I knew I needed to be at a place at a specific time. I would feel guilty driving a car in a city that had, and still deserves, quality public transit. I would feel guilty contributing to traffic and pollution that would otherwise be avoidable.

First Name: Amari **Last Name:** Shelton **Email Address:** amari.shelton@cityhigh.org
How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
6+ days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
School
How do you identify yourself? Select all that apply.
Black or African American
What is your age?

17 or younger
How would you describe your gender identity? Select all that apply.
Woman
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 3-4
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to school, daycare, or childcare
Other comments (bus and rail service reductions):
i think its unnecessary, it effects the time we get to school, work , it just makes things a lot more complicated when its doesn't need to be.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

Form was easy to use--thank you for soliciting comments.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
Eliminating the number 4 TROY HILL bus shouldn't even be an option. The 4 TROY HILL bus is the only bus I can take to get where I have to go and get home. Not only that I live on MT. TROY RD which is in itself far from any place to walk at all. My husband will not be able to walk all the way downtown to get to his workplace on the South side and get back home afterwards. We will not be able to afford to take Lyft and Ubers to places we have to get to and from. This is devasting to take away a bus that services many neighborhoods for
people in the area. There won't even be another bus to transfer to get anywhere. This is so insensitive to do to people who rely on the 4 TROY HILL to thrive. This is INSANE!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
I would not be able to afford the increased fares
I would have to make decisions about whether to pay for transit or other essential expenses
I would have to switch to another mode of travel
Other comments (bus and rail fare increases):
Increasing the fare is just as devastating as eliminating buses!

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am a teacher at Pittsburgh Public Schools and I can see the effects that reducing service has on my students every day. This city has consistently wasted money on projects that fall through or don't help our community, but then they want to cut essential services like the busses - it makes no sense. We should be INCREASING the amount of service that is provided to the city - it is an issue that helps all of us collectively. I understand the argument is that there isn't money, but it is literally the job of the city to figure this out. Pittsburgh has so much potential to be a relevant, modern city, but we consistently make poor decisions to keep us behind other similar sized services. If you want to help the city, you help the community.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
As mentioned above, this is just going to increase the burden on our city's poorest communities. The representatives of Pittsburgh like to claim that our city is diverse and equitable, but it's not. Poor communities are consistently more adversely affected on major decisions like this one. In my opinion, all students in the city should be able to ride out busses for FREE. Increasing the fare is insulting to those that struggle. We do not need to burden the people that need the most help.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I'm currently in college and have a disability and I've become more reliant on the bus and T to get where I need to go. The people who use public transportation the most are those who don't have access to a personal vehicle, students ranging from middle schoolers to college students, people with disabilities, low income families, people who are homeless, people who are older and many others who have no other choice but to use public transportation to get around. The effects of cutting down on the number of bus routes and increasing the wait times will be devastating.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Public transit is a huge boon for productivity and access, cuts to it only lose the community money and cripple the city. These reductions are a horrible idea in a city that already could use more public transit options, routes and times. This will hurt us all, increase congestion, lose the city economic power and growth, and set us back.

The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I would love to utilize public transportation, but the route from my home to work is already limited and unreliable. I am not able to rely on it to get me to and from work. However, I know of many community members who cannot afford a car and parking fees like I am able to currently. Further restriction to the route lines is going to impact those who are already struggling to access jobs, grocery stores, and doctor's offices.

Other comments (bus and rail service reductions):
The number 4 is the ONLY bus that serves our neighborhood of Troy Hill. My two children (12 + 14) use it twice a day to get to school at CAPA. We use it often to access downtown. So many other neighbors and kids up here use it every day, it is a lifeline for our underserved neighborhood. PLEASE DON"T CUT THE ROUTE!!!! My kids will not be able to get to school if the no. 4 does not run.

Hello,
My name is Mary-Alice Olson, LCSW, and I am a mental health provider in the Wexford area. I am writing to advocate for several of my clients who utilize Access to come to their therapy appointments.
I work with a high percentage of disabled individuals, and a large number of Deaf, Deaf-Blind, Hard of Hearing and Blind clients. Access is vital for them to have the ability to obtain in person therapy.
I am one of only a few providers in the area that is fluent in American Sign Language and Tactile sign for Deaf Blind individuals. If my Deaf Blind clients are not able to come to their appointments, they will not be able to access mental health therapy. They are not able to do virtual appointments, due to their sensory loss, and likewise are not able to speak over the phone. Losing their therapy services would further isolate them and contribute to many more mental health issues.
There are also a limited number of fluent ASL therapists in the city. Limiting my clients access to my office will cause them to have to seek therapy with another fluent therapist, potentially over burdening those providers. It is also the clients right to choose their therapist, and forcing individuals to seek services elsehwhere, due to lack of transportation is unfair. Access is the only form of transportation for these individuals to my office, as I am not on a bus line (that service was cut years ago). They do not have family that can transport them and Access is part of what makes it possible for them to live lives indpendent from their families.
Limited the clients access to my office will inevitably contribute to further mental health issues for these clients.
I strongly urge you to reconsider this limiting of services.
Please feel free to contact me for any additional input.
Sincerely,
Mary-Alice Olson, LCSW

I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I work in a downtown high school. Most of our students and staff depend on public transportation to get to school. Students would also miss out on internships, after school programs and work opportunities which are supported by public transportation. Reducing busses would make the travel times insurmountable for our students to have these experiences connected to the school day.

Other comments (bus and rail service reductions):
I ask politely for this cut to not happen, this will harm so many different things and people. People who are disabled, low income, climate, economy, access to education and more, will all be hurt. If money is an issue, it pains me to say this but maybe a small cent increase for payments, which I know is happening now, but I think it absolutely unfair to cut 6N/A% of buses, while also raising pricing. Possibly try being open to different forms of funding, maybe from larger corporations or public funding. If there is any other kind of proposals or alternatives listed, please take them into consideration.

Eliminating the 39 Brookline bus is ridiculous. It is the only bus that services the largest neighborhood in the City of Pittsburgh. If it would go away, the next closest route the 41 Bridgeville bus, is also being eliminated. The next route would be the red line in Dormont (outside of the City of Pittsburgh) which is approximately 1.5 miles away from my home. That service is also being cut back. Currently, the 39 Brookline bus route is two blocks away from home and is full going into downtown Pittsburgh and the ride home is completely full with all the seats taken and riders standing front to back. This route frequently passes riders up because they cannot fit anybody else on the bus. The bus is full of students and instead of eliminating the service should add another bus at the rush hour times to accommodate the riders.
Other comments (bus and rail service reductions):
Eliminating the 39 Brookline bus is ridiculous. It is the only bus that services the largest neighborhood in the City of Pittsburgh. If it would go away, the next closest route the 41 Bridgeville bus, is also being eliminated. The next route would be the red line in Dormont (outside of the City of Pittsburgh) which is approximately 1.5 miles away from my home. That service is also being cut back. Currently, the 39 Brookline bus route is two blocks away from home and is full going into downtown Pittsburgh and the ride home is completely full with all the seats taken and riders standing front to back. How often do you typically ride Pittsburgh Regional Transit (PRT) and/or ACCESS?
2-3 days per week
Where do you travel using Pittsburgh Regional Transit (PRT) and/or ACCESS??
Home
Work or job training
How do you identify yourself? Select all that apply.
White
What is your age?
65-74
How would you describe your gender identity? Select all that apply.
Man
Which of the following best describes your 2024 household income?
Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
None

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
My concern is about the 26 Chartiers bus route. I am a disabled senior citizen that depends on the bus for every thing I do, such as grocery shopping, medical appts.and church. I live in Sheraden which is a food desert the only place to shop is at the Giant Eagle in Crafton . I don't live near the main street so it would be a very long walk using my walker to use any other route. I am not the only senior where I live that depends on the bus. I live in the via Allendale part of the route. Seniors are not the only people effected by this proposed change there are a lot people that ride the bus with their children that also,depend on the bus to get their kids to school etc. I am pleading ,please do not eliminate the 26 Chartiers via Allendale!!
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases

Please tell us about any difficulties you had completing this form:
Cutting the bus routes will ruin schools, businesses, and our planet. I am a high school student living on the east end, I attend a public charter school downtown. Only two buses go through my neighborhood, one runs once an hour and doesn't go downtown, the other only runs during rush hour during the weekday. I chose this school due to better education opportunities and experiences to make sure I was getting a better academic outcome. My home school has tons of fights, teachers could care less about your actual education, and lower than average test scores. I have to take 2 buses just to get from one side of my neighborhood to the other and take three to work when it's only a 15 minute drive. Hundreds and thousands of civilians in the Pittsburgh community will be affected, especially people going from one side of the city to the other. Our nurses and doctors that work night shifts to take care of our loved ones might struggle to get to work if they even can at all. Small businesses may begin losing money due to any local transportation in the area. Cutting bus routes will also cause people to drive instead causing more gas emissions leading to a decrease in human health. 10% of adults and 11% of children already have asthma in the city of Pittsburgh, increased cars on the road will increase air pollution making it worse than what it already is.

Oppose or support specific reductions.
OPPOSE: 1 FREEPORT ROAD (Major Reduction), 18 MANCHESTER (Elim.), 21 CORAOPOLIS (Major Reduction), 28X AIRPORT FLYER (Major Reduction), 39 BROOKLINE (Elim.), 64 LAWRENCEVILLE-WATERFRONT (Major Reduction), 69 TRAFFORD (Major Reduction), 71 EDGEWOOD TOWN CENTER (Elim.), 75 ELLSWORTH (Major Reduction), 91 BUTLER ST (Major Reduction), P67 MONROEVILLE FLYER (Elim.),
SUPPORT: 65 SQUIRREL HILL (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would have to move to another home/dwelling where transit is available
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Time and time again, I decline to apply for jobs in many areas because the transit is inadequate or non-existent. Traffic is at a standstill in Oakland at rush hour, air quality is terrible, and we're getting rid of bus lines? This is no way to go forward into an inclusive, climate friendly future. I'm pretty much ready to move to another city because of the limitations here.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
I support increasing the fares to keep the system operational. I also support help for low-income individuals who may not be able to afford the fare. I would rather pay more and keep service available.

The 41 bus line on Bower Hill is vital to all the healthcare facilities in the area. I work at St Clair Hospital. Many of our employees use the bus for transportation. I can't imagine the impact this would cause to our employees who I imagine would have to look for closer employment as well as the disruption in patient care in the resulting fallout.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I rely on the O1 bus to get to work daily. I cannot have the line fully eliminated. This greatly affects my livelihood.

The changes may not impact me but will impact my community and/or loved ones
Other comments (ACCESS service reductions):
Handicapped people live in all areas of our current service area, and should have access to public transit regardless of where they live...Often, to do the right thing, we need to look behind mere legality, and do what is just, fair, right and kind. This means providing access for everyone regardless of their physical condition or where they live.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (ACCESS fare increases):
I would support Access trips being the same price as regular fare trips with options to give an additional donation if the rider choses.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I won't be able to depend on a guaranteed ride
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Without the Access routes currently available to me now it would greatly impact my life as I depend on Access to take me ever where I go as I am blind and not able to use public transit. This would also mean I could not get to work anymore as that route would be eliminated. Why is it that every time there are cuts to anything it always starts with the poor,disabled,old and the needy the ones who rely on these services to keep them active and healthy on a daily basis . What ever happened to the Americans with Disability Act ? So there's no funding so let's just throw that act out the window those people aren't important. And on another thought and I know how the state loves the lottery money for the Seniors and brag about it all the time but hey a lot of Seniors use Access as well as we disabled so why not give funding to Access via Pa. Lottery money after all they would be helping Seniors and the good Lord knows we have enough lottery games running everyday in this city of ours to pay for the transit shortfalls . Now that's a good idea and it won't hurt anyone and maybe even keep the cost of riding down with the influx of new lottery money coming in.
And perhaps as a safety net of sorts there could be a public audit of PRT to find out why they are having such shortages of funds maybe there is something amiss going on there . Just a thought and after all it would be publics money being donated .
A Concerned Access Citizen .

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
SUPPORT all proposed service reductions
Service change impacts (bus and rail):
N/A
Other comments (bus and rail service reductions):
Reducing service is not in and of itself a good thing, Allegheny County should not be reliant on funding sources from outside of the county. Further budgetinig should be focusing on getting funds from Allegheny County itself, and the local municipalities within. Public transit funding in Allegheny County and SEPTA is too heavily reliant on outside funding. More localized funding is more reliable, and easier to predict.
Please indicate if you oppose or support the proposed fare increases:
SUPPORT the proposed fare increases
Fare increase impacts (bus and rail):
N/A
Other comments (bus and rail fare increases):
Fares must be increased. The cost of the fares is already below how much each ride and mile costs the agency.

Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 41 BOWER HILL (Elim.), Y1 LARGE FLYER (Elim.), Y47 CURRY FLYER (Elim.), SV SILVER LINE LIGHT RAIL (Elim.), RD RED LINE LIGHT RAIL (Major Reduction),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
The 41 Bus is the primary route that healthcare workers at many facilities, including St. Clair Health, Asbury, Kane, Concordia, and others use to get to work. Eliminating this route would negatively impact current workers in their commute, including being the reason that employees can no longer get to their jobs after depending on the bus for years. This will also impact hiring, as it is a factor when employees seek jobs when depending on public transit. We are already in a healthcare worker shortage, which will be made worse by losing the already limited and only bus route that goes by these several key healthcare facilities.
In addition to staffing levels impacting other staff, people not having access to these facilities or having even more limited access via public transit will also impact patient or resident care levels. Patients in a hospital and residents in assisted living or nursing facilities depend on the appropriate levels of staffing for safe and effective care. If that staffing is reduced due to limiting or eliminating their main transportation to work, the patients and the residents will suffer. In an emergency, timing is everything. In ongoing care, it is important to maintain routines. Both situations require that the proper amounts of staff have arrived in a timely manner and are actually able to get to work.
In addition, this will limit access to healthcare to patients that rely on public transit to get to doctor's appointments or to seek medical care. Especially with the additional proposed cuts to ACCESS, our patients will not be able to easily access healthcare services.
Anyone that uses the 41 bus to visit loved ones in the hospital, or at a senior facility such as Asbury or Kane, which can be a big help to patient success, will have to find alternate transportation and may not be able to. In addition, any residents that are still able to freely move about the county by way of public transit, will have their independence limited - this will remove easy access for them to go shopping for themselves, to go to appointments outside the care facility independently, and to visit family and friends outside the facility as well.
Removing the 41 Bus line will impact so many lives, including people trying to maintain their independence in their golden years all the way through people trying to make a living, using resources like the bus to do so. In an economy where you cannot lose your job, but owning a car is expensive and sometimes not a possibility, resources like the bus save money and help people be independent and take care of themselves and their loved ones. I urge you to look at alternate solutions - can times be changed to better serve more people while allowing PRT some latitude with schedules? Sitting down with representatives that utilize the bus lines and/or that employ or take care of people who do, and learning what schedule benefits them and also you would be a much better solution than eliminating a line that serves such critical services.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
The more it costs to ride the bus, the less attractive of an option it becomes. As less people ride the bus because in this economy, every cent counts, the revenue for PRT goes down, causing even more money troubles. increasing fares also decreases access to the public transit system.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
All of my family members--two professional adults and two teenaged kids--rely on PRT for transportation to and from work and school. Additionally, many of our friends and acquaintances do the same. The bus system is an essential resource in our community and makes Pittsburgh possible. Please *increase*--do not decrease--service and funding. To defund public transit now would be to levy a tax on our most vulnerable neighbors, on Pittsburgh's future as an environmentally sustainable city, and on our ability to recruit young professionals who prioritize and rely on public transportation.
Please indicate if you oppose or support the proposed fare increases:

Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Every morning I take the 39 from Brookline to downtown so I can transfer to a second bus to get to my job. The bus is standing room only every morning. If it is eliminated, I no longer have a reasonable, reliable way to get to work. I would have to buy a bike and cycle (there is no infrastructure for in the south hills) or walk. There are many kids, disabled people, and older people on the bus and if this is destroying my ability to have mobility in this city, I can't imagine what it must do for them. You are essentially eliminating public transit as a viable mode of commuting in the city, which will have huge downstream impacts.

Other comments (bus and rail service reductions):
I work at a nursing home and have been here over 15 years. I do not drive. I would have to quit and I love my residents. I am concerned because we have multiple healthcare/ hospitals on this line. The elimination would cause hardship to all these people. St Clair Hospital, Asbury Heights, Kane, Providence Point.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Elimination of the 41 Bus route and reduction of Red Line will crush the ability of those that live in the South Hills to maintain easy access to town or even around out communities. And then to further see the elimination of neighboring routes, so you couldn't even go there to get access. This is shameful.

Bus and light rail service and fares, ACCESS paratransit door-to-door service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I have friends who rely on ACCESS for transportation to their doctors appointments and everything. Also friends and community members - primarily underserved members of our community who are struggling to survive who would lose access to jobs, stores and healthcare. This is an issue about social justice. PRT should make an immensely effort to raise funds rather than cut routes. I understand the predicament and hope for the best outcome

Service change impacts (ACCESS)
My travel time would greatly increase
I won't be able to depend on a guaranteed ride
I would no longer be able to access medical care locations
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS service reductions):
Access is a great means to get to medical appointments and on time. We use them for safety reasons also because they pick up and drop off at the door. Having to walk anywhere in the city is dangerous, too many crimes much safer in Access. Without Access we would be forced to just stay home which is no way to live.
Please indicate if you oppose or support the proposed ACCESS fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (ACCESS):
I would have to make decisions about whether to pay for ACCESS or other essential expenses
I would have to switch to another mode of travel or rely on a family member or friend
Other comments (ACCESS fare increases):
I would be forced to cut back other places to be able to afford Access.

Other comments (bus and rail service reductions):
It's already incredibly difficult some days to catch a light rail into town. While these changes may not make it impossible for me, they will make my commute even more challenging. Coworkers of mine won't be so lucky and will have to find an entirely different way into the city, as the changes eliminate ALL mass transit options in/out of their neighborhoods. I strongly oppose these reductions in service.

Service change impacts (bus and rail):
My travel time would greatly increase
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I do not own a car. All bus routes that come near my house are proposed to be eliminated, which would leave me isolated and only able to go to places within walking distance. Neither my work office nor doctor's offices are within walking distance and I rely on the bus to get to them (I travel to and from work at least 3 days per week, and travel to the doctors on occasion). Keeping the 36 and 38M routes would be the best outcome for me, but I also use the 41 sometimes, and I also sometimes take the 38M to the T station to ride the Red Line.

Service change impacts (bus and rail):
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
My family specifically moved into the City, as opposed to a suburb due to the convenience and availability of having public transit options. While i no longer ride it daily, the P71 is wonderful on occasions where a vehicle is in the shop, traffic is exceptionally bad, or for other commuting circumstances. we would consider the loss to be significant in terms of livability and will likely reduce property values in the Swisshelm Park neighborhood.

I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I am a student at Carnegie Mellon University and rely on PRT to get around. The 28X is my way of getting to the airport and changes to this route mean going to and from campus will cost me significantly more. Additionally, though I don't live within access to many PRT bus routes, the ones I do use, mainly the 28X, 54, 64, 65, 74, and 75, connect me to grocery stores and community. Cutting these routes and many of the others means the nearly 145,N/AN/AN/A college students who make up almost half of Pittsburgh's population, will not be able to access key destinations around Pittsburgh. Students will forced to purchase a car, ride share, bike, or walk for much longer— all of which either put students at significant financial disadvantage or are not a safe means of transport for much of the year.

OPPOSE: 40 MOUNT WASHINGTON (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Part of the appeal of living in the city is the ability to access public transportation. The Mount Washington 4N/A bus is used by many people without a personal vehicle access to Shop & Save, access to downtown for dentist and Oakland for doctor appointments. Many elderly are able to maintain some level of autonomy because of the 4N/A. The 4N/A occupancy during non-commute hours is rarely full. So, I would suggest increasing the interval between services or using a smaller bus. But eliminating would hurt the most vulnerable including the elderly and the poor. Are we becoming a city only for only the rich? If we can spends millions on buying bridges for biking and recreation and millions on a one time event meaning the 2N/A26 draft but not help those who need transportation for food, school and healthcare, then I am embarrassed to be called a Pittsburgher.

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: P12 HOLIDAY PARK FLYER (Elim.),
Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
I would no longer be able to get to my current job, training location, or will have to find a new job
I would have to switch to another mode of travel
Other comments (bus and rail service reductions):
I highly oppose ALL of the proposed PRT service changes, reductions and eliminations, but my greatest concern is the elimination of the P12 Holiday Park Flyer, which as a Plum Borough resident I use to commute to my downtown Pittsburgh work location. This is the only bus that serves my neighborhood and my only feasible option for getting to work. I absolutely cannot financially afford to drive into work every day, between parking and gas costs and the toll on my vehicle. My salary does not provide for the increased travel costs when the cost of living is going on, between my healthcare, utilities, RENT and other necessary spending. With the housing market, I cannot afford to move to another municipality that would retain bus service. One of the reason I initially moved to my neighborhood nearly 2N/A years ago was because it had public transit access. I also cannot overstate the mental toll, on top of the financial hardship, that driving into downtown Pittsburgh every day, would have on me. There is already too much going on in the world and in all of our personal lives to now have to WORRY about how we are going afford to get to work. Please do not eliminate the P12 Holiday Park Flyer bus route.
Please indicate if you oppose or support the proposed fare increases:
OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
In general, I do not like increased costs.Nobody does. Especially when a fare hike would put PRT toward the top of the highest public transit fares. But if a small increase is necessary to keep existing bus service, then I would accept the increase. Only if it is SMALL.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would have to take ACCESS instead of fixed route service
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
I am one of the people who has been educating the Trafford Community about the proposed elimination of the 69 Trafford bus. Presently, the bus serves Trafford every day. Through my outreach, I learned many people in Trafford depend on the bus to go to work, to shop, to attend college, to visit family and friends, and to go to medical appointments. Trafford Manor is a residence for seniors and those with disabilities. An Uber driver said he often takes residents from Trafford Manor to Shop & Save in Haymaker Village. The trip is .6 miles and costs $15. With a senior bus pass there would be no cost. Some residents have bus passes; however, many seniors have no way to get to the Monroeville office of Representative Markosek to apply for a bus pass.
Initially, my focus was on the impact on residents if the bus was eliminated. But what I hadn't considered is many people take the bus to Trafford. The cook at the local restaurant takes the bus to Trafford every day. A nursing professional takes the bus to work at Trafford Manor. The owner of the local barbershop said he has customers who take the bus from Pitcairn and Turtle Creek. A Trafford resident said his daughter would never be able to visit if the bus were eliminated. None of these people own cars because for many owning a car is cost prohibitive.
In the past few months, I have taken the bus downtown and to Forbes Hospital. I took the bus at various times during the day. I noticed ridership was low for the entire ride to downtown, but more importantly, it was clear to me those who rode the bus depended on public transportation. I participated in the Transit Workers Appreciation Day. While waiting to thank the bus drivers, I had a chance to talk to many riders at downtown bus stops. Everyone was concerned about possibly losing their bus service.
It seems those with limited or no other transportation option will be the most affected by the elimination of bus routes. Losing the bus service will create hardships because people will lose jobs, will not be able to visit doctors, and will lose access to grocery stores, pharmacies, and banks. Some will not be able to visit with family and friends.

Service change impacts (bus and rail):
My travel time would greatly increase
I would lose flexibility with my travel times and/or would need to change my schedule to accommodate these changes
Other comments (bus and rail service reductions):
I am an employee of the University of Pittsburgh and use the PRT exclusively for my commute to work. I am one of the lucky ones--I have a few different bus options to get to the office--but there are many others who don't have a choice. And for whom losing a bus route means losing a job. I certainly understand the squeeze that the PRT faces with dwindling and sub-par support from the Commonwealth Budget, but paralyzing an entire chunk of the population by eliminating their only option for transportation to school and work isn't the answer. It's a short-sighted approach that's going to reduce the likelihood of people moving to this city. It's also adding pollutants to our already highly toxic air by putting more cars on the road. Please aggressively pursue other alternatives. Grant funding, tax funding, RAD funding. Are there any cost-saving efficiencies to be gained in the overall operations of PRT? The buses and light rail systems are essential to the well being of our city. We're counting on you to be strategic and creative in your approach to this long-simmering problem. Thank you.

OPPOSE the proposed fare increases
Fare increase impacts (bus and rail):
The fare increases may not impact me but will impact my community and/or loved ones
Other comments (bus and rail fare increases):
Again, I realize that PRT is being squeezed on all sides. But for many people, this extra $100 a year puts a bus pass out of reach. I would support the overall rate increase if there were exceptions based on household income, veteran/disability status, senior citizens, etc.

I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to access medical care locations
I would have to move to another home/dwelling where transit is available
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
Other comments (bus and rail service reductions):
Port Authority is vital for the South Hills, especially the 41 route. Healthcare workers, environmental services workers, and food service workers from Kane, Providence Point. St. Clair Hospital, Asbury Heights, etc. all rely on that line to get to and from work. Without this line, everyone will suffer without the care they are in such need of. These reductions will also cause a great staffing need in the south hills, as employees that do not have access to transportation would have to find something else that they can commute to. This will cause mass chaos in the south hills. Port Authority helps to reduce the amount of cars on the road as well, so with these reductions, traffic in the south hills is going to be exponentially worse than what it is now. We need to take care of the people that take care of us.

Other comments (bus and rail service reductions):
As a young professional who dreamed of moving to Pittsburgh from my Small-town USA hometown, these proposed changes are making me lose faith in the vibrant community I've come to call home. Pittsburgh is without a doubt an old city, one that is already behind the urban landscapes of other like-sized communities. Seeing that our access to what is considered the norm of other places makes me consider leaving, moving to another city that seems to have figured out whatever it is that Pittsburgh is lacking. And I know if these changes rattle me enough to consider leaving, I am not the only community member considering this.
Maybe filled too much with hopefulness, I dream of sometime in the future where every neighborhood has such ready access to transit that schedules become a thing of the past. I dream of being able to live anywhere in Allegheny County and depend on PRT to take me to a Penguin game, to carry me safely from the North Shore for a concert to Lawrenceville for a beer afterwards. To show me places already forgotten by PRT, such as Etna and Homestead and Tarentum. In a time of isolation and division, it is heartbreaking that something as easy to fund as transit is going to divide us even more.

Other comments (bus and rail fare increases):
Disappointingly, Pittsburgh seems to have one of the highest transit fares per our population across the country. What of the people already pulling strings for that extra $2.75 per ride, deciding between going to work or a can of soup for dinner later? What of the people still making the abysmally low amount of PA state minimum wage who depend on the stability of the price for the bus? Particularly, in a time of economic unease, it is upsetting that PRT would put even more responsibility on the consumer.

Prefer not to respond
Including yourself, how many people live in your household? 1-2
Please tell us about any difficulties you had completing this form:
N/A

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
OPPOSE all proposed service reductions
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
Other comments (bus and rail service reductions):
I want to express my concern about the changes to Route 21 (Coraopolis) and Route 28X (Airport Flyer). These routes are essential for my commute to work, along with hundreds of colleagues, where we create advanced communication aids for thousands of individuals with communication disabilities all over the world.
The proposed reductions will significantly impact our ability to get to work and serve our society and customers all over the world. I urge you to maintain at least one bus in the morning and one in the evening during business hours to help us continue our important work.
Thank you for considering our request.
Br,
Christy

Which changes would you like to provide comment(s) about?
Bus and light rail service and fares
Please indicate if you oppose or support the proposed reductions to bus and rail service.
Oppose or support specific reductions.
OPPOSE: 36 BANKSVILLE (Elim.), 39 BROOKLINE (Elim.), 40 MOUNT WASHINGTON (Elim.), 41 BOWER HILL (Elim.),
Service change impacts (bus and rail):
I would no longer be able to get to my current job, training location, or will have to find a new job
I would no longer be able to get to key destinations such as shopping, entertainment, social activities, and religious activities
I would have to switch to another mode of travel
Eliminating bus service to Brookline and all surrounding buses that are anywhere close is very unfair and leaving orders stranded
Other comments (bus and rail service reductions):
The elimination of all bus service in one neighborhood and the surrounding area is unfairly decided. This leave the rider with no option of bus service at all.

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
PRT's services in the Mon Valley are essential for people to get to jobs, doctor appointments, social services, and to be a part of their community. Proposed cuts could cut off people from all of the aforementioned. At the Human Services Center Mon Valley, we are also concerned with their access to the variety of social services in our facility which are critical to WIC recipients, seniors, people seeking food, mental health counseling, and much more.
Dave Coplan
Executive Director, Human Services Center Mon Valley
519 Penn Avenue, Turtle Creek, PA 15145

OPPOSE: 28X AIRPORT FLYER (Major Reduction),
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Hi,
I want to express my concern over the proposed changes to Route 21 (Coraopolis) and Route 28X (Airport Flyer). Our company is dedicated to creating and maintaining communication aids for individuals with communication disabilities all over the world. The work we do is critical for the society, and any disruption to our ability to get to work could have far-reaching consequences for the people who rely on our products.
These routes are essential for my daily commute, together with hundreds of colleagues, and the planned reductions in service will have a profound impact on our ability to get to work. The proposed changes to the bus routes will not only affect our employees but also the thousands of individuals who depend on our services worldwide.
I respectfully request that you reconsider the decision to reduce the frequency and availability of these bus routes. Ensuring that there is at least one bus in the morning and one in the evening during business hours would help mitigate the impact on our employees and allow us to continue our important work without disruption.
Your support in maintaining these essential bus services is crucial for our community and the people we serve. Thank you for your understanding and consideration.
Thank you,
Melissa DiLeo

OPPOSE all proposed service reductions
Service change impacts (bus and rail):
The changes may not impact me but will impact my community and/or loved ones
Other comments (bus and rail service reductions):
Hi,
I want to express my deep concern regarding the proposed changes to the bus routes, specifically Route 21 (Coraopolis) and Route 28X (Airport Flyer). Together with hundreds of colleagues, we rely heavily on these routes to commute to work. The reduction in service frequency and the elimination of evening services will significantly impact our ability to get to and from work. The ultimate risk is that we might have to leave our workplace.
Our company plays a crucial role in developing, manufacturing, and repairing communication aids for individuals with communication disabilities. The work we do is vital, not only to our local community but to thousands of people who depend on our products to have a voice. The proposed changes to the bus routes will make it extremely difficult for many of us to get to work, potentially disrupting the essential services we provide to society.
I urge you to reconsider the decision to downsize these routes. Maintaining at least one bus in the morning and one in the evening during normal business hours would greatly alleviate the burden on employees like myself who depend on public transportation. This small adjustment can make a significant difference in our ability to continue our important work without interruption.
Thank you for your attention to this matter. I hope you will take our concerns into consideration and work towards a solution that supports both the community and the essential services we provide.
Best regards,
Chelsey
